At Villa Ponciago, traditional methods of vine pruning "en gobelet" have progressively given way to wire training using the cordon method. ALLEGRIINI

The Allegrini family has played a leading role in the history of Fuman and Valpolicella since the 16th century and has passed on the culture of wine-making from generation to generation.

The Allegrini company may be considered the result of the intelligence and hard work of Giovanni Allegrini, who was a straight forward, instinctive man who built an agricultural concern that was solid, efficient and innovative. After the premature death of Giovanni in 1983, his three offspring took over the company and have run it ever since with impassioned enthusiasm and ever-increasing skill and competence.

RAPAURA SPRINGS | MARLBOROUGH, NZ

Marlborough is the place we call home, where we live and create wines of character and beauty. Our goal is to enhance the environment around us through sustainable vineyard and winemaking practices that will leave a natural legacy for future generations. The journey of this Rapaura Springs wine begins far from our vineyards, at a point where the earth claims a share of the Wairau River. After a 6 month journey through a rocky aquifer, the water is released to a spring that weaves through our vineyard. This spring, depicted on our label, provides both the crystal clear, pure, water for our vines and guides the philosophy behind our family winery.

MADEIRA WINE CO

The Madeira Wine Company, S.A. was originally an association of a number of Madeira wine producing companies, who decided to join forces in order to strengthen their purchasing and wine making abilities. This Association was founded in 1913. During the inter-war years the old family firms of Blandy's and Leacock joined, followed immediately post war by Miles and Cossart Gordon, thereby creating the largest producer and exporter of Madeira wine. Whatever the size, the maintaining of the unique characteristics and style of each individual firm was at the chore of the association.

Our approach is straightforward: find intense, flavorful grapes; intrude upon the process only when necessary; draw the fruit's distinctive character and richness into the wine.

At Ridge, we are committed to sustainability, and to organic certification of our vineyards. Sustainable agriculture can be summarized as a farming system that is sensitive to the environment, responsible to the community, and economically feasible to implement and maintain.

CALERA | CENTRAL COAST, CALIFORNIA

Calera is a vision, and Calera's wines truly express the sense of place. Rather than follow the recommended path, Josh Jensen became a pioneer in American Pinot Noir. Taking his cue from the great domaines of Burgundy, which have grown grapes in limestone soil for centuries, he set out in search of the perfect spot in California to create wines unique to the world but in the style of the greatest wines of France. Site selection was vital as he ventured off the grid to plant on the site of an old limekiln in the Gavilan Mountains of California's Central Coast. Today Calera wines still express that pioneer spirit and are revered the world over. We are proud to report that even Robert Parker is convinced: "Calera is one of the most compelling Pinot Noir specialists of not only the New World, but of Planet Earth."

Every great tradition begins as an innovation. Paraduxx was created to allow the Duckhorn Vineyards' winemakers the freedom to explore other styles without detracting from the winery's focus on Bordeaux varietals. In 1994, Paraduxx sourced 4 tons of Zinfandel from the 100-year-old vines of Napa's Korte Vineyard and blended it with Duckhorn Vineyards' own estate Cabernet Sauvignon, along with smaller amounts of Merlot and Petite Sirah, creating the first Paraduxx vintage.

SHAFER | NAPA VALLEY, CALIFORNIA

Owned and operated by the Shafer family. The Shafer approach to vineyard cultivation and winemaking can be summed up in the title of the old Stephen Stills song, "Love The One You're With." When we started making wine in the late 1970s, none of us had the opportunity to visit other great viticultural regions of the world and learn how wine was made in, say, Bordeaux, Chianti, or Southern Australia. The team of John Shafer, Doug Shafer, and Elias Fernandez was completely absorbed (they might say "overwhelmed") in learning how to grow fruit and make wine from our little plot of earth in Napa Valley.

KOVAL DISTILLERY | UNITED STATES

Established in 2008, KOVAL produces organic whiskey, liqueurs and specialty spirits in Chicago's first distillery since the mid-1800s. Founders Robert and Sonat Birnecker, chose to leave their academic careers to bring the distilling traditions of Robert's Austrian family to America. In making this decision, they vowed to make organic spirits from scratch (avoiding the common industry practice of purchasing and bottling pre-made spirits) and to change the way people understand whiskey by creating a new, signature style - using only the "heart" cut of the distillate - affording a brighter, cleaner take on whiskey.
