Instructions

The holiday of Sukkot is quickly approaching us and one of the main customs of the holiday is to build a Sukkah. Click here (or do a google search) to learn more about it: https://www.myjewishlearning.com/article/the-sukkah/

You are invited, as GP-GC to make a sukkah out of candy. You’re welcome to use grahm crackers, marshmallow fluff, gummies, licorice, pretzels, etc. etc. But, somehow the sukkah you “build” must do one of the following:

1. Represent something unique about your family. For example, a family who puts great emphasis on Israel, can decorate the Sukkah with an Israeli flag (made out of candy).

2. Represent an important Jewish value. For example, the Sukkah could have “guests” in it representing the value of being a hospitable community.

After you build the Sukkah, remember to take pictures, record a short video explaining the idea behind the Sukkah you built and of course, enjoy eating it!
