

15 FACTS ABOUT FLOATING

FLOATING IS WEIGHTLESS

Each pod is filled with 200 gallons of water & 1200 lbs of Epsom Salt. This solution allows your body to float without effort.

TRIPLE PURIFIED CRYSTAL CLEAR WATER

Water quality is important, which is why we filter each pod 3-4x before & after each float through a sophisticated filtration system.

FLOATING IS SAFE

Floating is a natural & clean way to renew & refresh. Our water is so buoyant, you float, even if you fall asleep.

FLOATING IS GOOD FOR YOU

New studies show that floating has incredible physical, mental & emotional benefits including stress & pain reduction.

FLOATING IS NOT NEW

Modern floating has been around for over 40 years & is backed by clinical research. People have been floating for thousands of years in the Dead Sea.

OUR ROOMS ARE PRIVATE

When you float, you float nude, so customer privacy is a priority. At Urban Float, you have access to your own private shower & pod.

FLOAT IN DARKNESS (OR NOT)

Our rooms are designed for total control. Float in the dark with all the lights off or manage your comfort level by leaving lights on or the pod open.

QUIETER ROOMS

Our unique locations offer a quieter experience with sound-proof walls & flooring & an isolated pump room.

FLOATING IS GREAT FOR YOUR SKIN

Epsom salt naturally smoothens & softens your skin.

JUST BRING YOURSELF

We take care of everything to towels, soaps & shampoos, ear plugs & more.

OUR PODS ARE BIG

Our float tanks have been tested with floaters weighing up to 350 pounds who have been able to float without issue and long enough for taller customers.

SAFE TO FLOAT WHILE PREGNANT

Not only is it safe but it's encouraged! Some say floating is "a pregnancy must!" Floating allows you to escape the added stress & weight of pregnancy.

ENHANCE CREATIVITY

Musicians, writers & creatives from around the world using floating as a tool to enhance their flow.

PERFECT WATER TEMPERATURE

We maintain water at your skins temperature, between 93.5-95F. This means you lose track of where your body ends & the water & air begins for perfect relaxation.

YOUR MIND IS FREE

Without distraction - your mind is free to renew, refresh & revive & your body gets to rest, de-stress & heal.
