Good morning, Local System Managers,

On May 26 and May 27, one person from each local system will be able to participate in one of four 90-minute user acceptance testing sessions (UAT) for TRAC-IT. The 2-week intensive testing of the system will be wrapping up at that point, and these short testing sessions will provide a final set of feedback for SSG and a sneak peek at parts of the new system for 40 users. Please note that the purpose of testing is to ensure the system works as it was designed to work, not necessarily the way each person would prefer it works.

These will be hands-on, working sessions in which the participants will test a few select TRAC-IT functions in the test environment, following instructions given during the session. Participants will be asked to keep their microphones on as they work so we can hear feedback as you go. To support effective communication and work, there will be a limit of 10 participants per session.

The structured walk-through UAT sessions will be held at the following times:

- Thursday, May 26, 9:30 – 11:00
- Thursday, May 26, 2:00 – 3:30
- Friday, May 27, 9:30 – 11:00
- Friday, May 27, 2:00 – 3:30

https://mail.google.com/mail/u/0/?ik=c43bc6e6da&view=pt&search=all&permthid=thread-f%3A1731727173495610818%7Cmsg-f%3A1731727173495610818...
One person from your local system can register for a session using this link: https://attendee.gotowebinar.com/rt/8987600882450361871

If you are participating in the more intensive user acceptance testing, we ask that you give this short-session opportunity to someone else in your local system.

Thank you,
Catherine
