

Markets indicated are inclusive of metropolitan areas

Variable Frequency Drives for HVAC applications. Available in a wide range of horsepower & NEMA ratings. Local stock and factory certified start-up & repair services available.

Baltimore, MD | Washington, DC

Baltimore, MD | Washington, DC

SGR shaft grounding rings. Provides bearing protection from VFD induced shaft voltages for motor & attached equipment. Maintenance free for life of the motor.

Baltimore, MD | Washington, DC

All aluminum indoor and outdoor custom air handling units. Extruded panel design with "true no-thru-metal construction." Wash down and corrosion resistant. **SiteBill** field assembled AHU replacement program.

American Ultraviolet

Baltimore, MD | Washington, DC

UVC lamps for HVAC & water purification. Improve IAQ, save energy and eliminate contaminants. Fixtures feature the highest High Output (HO) lamps. New construction & field retrofit applications available.

Baltimore, MD | Washington, DC

Air Zone International offers custom air handling units specializing in low sound and small footprint applications. Average sound level <NC40. Up to 180,000 CFM, 2" through 4", steel, aluminum & stainless steel construction.

Baltimore, MD | Washington, DC

Protective coatings for HVAC/R equipment & coils without affecting heat transfer & pressure drop. Solvent free coatings for indoor AHU casings. On-site refurbishment of existing AHU's, coils, outdoor heat exchangers, etc.

Baltimore, MD | Washington, DC

Unitary and custom gas fired packaged air handlers & equipment. DX, CHW, HW, steam & electric coils. True custom options available. 304 & 316 stainless steel units for hazardous & corrosive applications.

Baltimore, MD | Washington, DC

Custom coils including heating/chilled water, DX, glycol, & insulated coils. Quick-ship options available for 10 day, 5 day, and overnight shipping.

Baltimore, MD

Innovative & cost effective air cleaning systems that save energy & reduce operating costs through lower fan energy, lower static pressure & longer service intervals.

Baltimore, MD | Washington, DC

Thermal dispersion air flow measurement. Long term reliability, infinite turndown, independent multi-point sensing and stable accuracy, no periodic calibration required. Duct & fan probes, "Plug & Play" transmitters with direct BMS interface.

Baltimore, MD | Washington, DC

Heat pipes for energy recovery applications. HRM™ passive heat exchangers with patented 3-D Heat Loop™, no pumps or tilt mechanisms. DHP™ wrap around systems with precool & reheat for dehumidification. New air handling equipment and retrofit installations.

Washington, DC

Industry leader in humidification. Electric condensing gas & steam exchange isothermal options. Energy efficient adiabatic high pressure atomizing nozzle humidifiers, evaporative media and hygienic DL media for health care & critical applications.

Baltimore, MD | Washington, DC

XCLU-SIEVE 3 angstrom molecular sieve heat wheels. Equal latent and sensible heat transfer, cross contamination less than .04%, low dew point. Active and passive desiccant wheel OA units & chilled beams.

Baltimore, MD | Washington, DC

Maintenance-free aluminum damper technology. Thermally insulated, air-foil control, back draft, & multi-zone dampers, louvers, and damper actuators.

Baltimore, MD | Washington, DC

Active harmonic filters, passive harmonic filters, drive output filters, line reactors, and other high quality products that increase the value and improve the performance of power inverters

Baltimore, MD | Washington, DC

Engineered custom air handling units. Double wall construction features heavy gauge, smooth interior air tunnel. Turn-key factory piped & wired penthouse units. Multiple panel designs & construction materials available. Pump & chiller skid packages

Baltimore, MD | Washington, DC

American VENTUS AHUs feature an innovative frameless casing design for improved thermal performance, leakage, & deflection strength. Their airfoil plenum fans provide some of the quietest units on the market. VTS offers quick leads times of 4-6 weeks.

Baltimore, MD | Washington, DC

Specializing in cost effective HVAC equipment for custom AHU applications ranging from energy recovery, data centers, direct AHU replacements and low CFM/high static pressure profiles.

601 Hammonds Ferry Road, Suites F-G | Linthicum, MD 21090
