Functions, Conferences and Meetings.

Motel Nomad's Function Room is a large, open plan room with clean white walls. Natural light filters through large colonial French doors and windows. Curtains can be drawn to create a dark room for intensive training or audio-visual purposes. The space is well appointed, complete with a bar and reception. Our Function Room opens onto our Poolside Patio, an inviting outdoor, undercover area surrounded by palm trees.

Motel Nomad's small Conference Room is the perfect size for smaller groups or meetings. Again, the natural light filtering through colonial French doors and windows makes for a great learning space. Our Conference room is Poolside, with garden views.

Set within our garden filled compound, the rooms are part of our larger Queenslander-style building. Red brick cobbled lanes skirt the building and timber ceilings in some areas. We've kept some of the quaint timber furnishings within that give us a unique touch. It's new school meets classic. Catering is available and made fresh on-site.
