Thanks to you, As You Sow is widely recognized as the leading nonprofit in shareholder advocacy, at the forefront of the field. In celebrating 30 years of tremendous growth, impact, and tangible results, we first and foremost acknowledge your partnership.

Here’s how we know you’re making a difference: There is a stunning amount of alarm and orchestrated pushback from the radical right this year, including attacks directly targeting As You Sow.

The alt-right’s stridency and targeted vitriol is a direct result and confirmation of impact and success. With your support, we will continue – we will **expand** – the shareholder advocacy and the impact that so alarms the regressive right.

You are making a difference. Together, we are building the just, sustainable world we all deserve. Thank you for standing shoulder-to-shoulder with us on this journey.

Countering Anti-ESG Attacks

Shareholder advocates have delivered significant corporate progress on climate, including record-breaking shareholder votes, agreements from major corporations on Paris transition plans, and success in running dissident board slates. The regressive right is unleashing a coordinated, interlocking series of attacks to discredit and derail that progress — and ESG investing in general.

We cannot cede ESG investing, corporate accountability, or any of our progress. We of course are continuing the work that so alarms the regressive right – the shareholder engagements, resolutions, board actions, public shareholder voice — but we also have to counter their disinformation campaign and anti-ESG messaging.

If the radical right gains the advantage, they can halt and even reverse progress on climate, justice, and other ESG issues. The stakes could not be higher.

We can – we must – fight back. Will you join us?

Your gift today helps disrupt anti-ESG momentum. YOU can make the difference!

Double your impact! Every dollar raised, up to $100,000, will be matched 1:1.

I won’t allow the radical right to destroy our progress!

I want to make a difference.

I WANT TO HOLD CORPORATIONS ACCOUNTABLE.
