

CiB Kids

LEARN. GROW. HAVE FUN!

For this week's activity, you can use a toilet paper roll or a paper towel roll to create fireworks for the Fourth of July! Take the roll and a pair of scissors (be careful with these and/or ask for help) and cut along the edge to create strips. You'll go all the way around the roll until they fan out. Then take a paper plate and some paint - any colors you like! - and dip the roll into the paint so that the strips are covered in it. Swirl onto some paper to create fireworks. Enjoy!
