MORE THAN A FARM

Originally established by the Webster family in 1868, Arethusa Farm is built upon some 150 years of dairying heritage. When current owners George Malkemus and Tony Yurgaitis bought the farm in 1999, they soon found that the milk from Arethusa was something special and deserved to stand on its own. Today, we’re proud to highlight that quality in a wide range of exceptional dairy products including ice cream, cheese and milk like it used to taste.

With our baked goods we strive to highlight the freshness of our dairy. Seeking a coffee with parallel standards, we looked to Stumptown Coffee Roasters, where harvesting by hand and carefully selecting the fruit is their highest standard. Stumptown roasts the beans on demand every week giving us a cup of coffee unlike any other. Together, our standards create an experience that is truly by hand.
