

STRATFORD TREES

Advanced Wholesale Nursery

Acer rubrum 'Fairview Flame'

Common Name: 'Fairview Flame Lipstick'

Landscape value:

One of the most stunning maples, with its reliable annual autumn colour display in rich reds & orange's and it's well-structured branch shape makes this variety an ideal choice as a specimen tree or shade tree in large gardens or parklands.

Also, a great choice for group plantings, avenues, driveways and streetscapes.

A relative quick growing tree

Typical size: 10m x 12m

Growth rate: Moderate to fast

Habit: Narrow when young that matures into an oval shape

Foliage: Maple shaped leaves. Red-purple tinged leaves in the spring, turning to rich green in the summer and then into brilliant red in the Autumn. Three to five lobbed leaves

Flowers: Small maroon yellow flowers

Fruit: Paired samaras

Season of Interest: Autumn

Position: Full sun to part shade

Soil Type: Best in humus rich soil

Tolerances/cultivation: Quite tolerant of dry and heat, but not excessive dry soils. Will tolerate moderately wet soils. Moderate tolerances to air pollution and compaction.
