Great Turnout at 4th Annual Health Fair

Chairman’s Column

Wuneekeesuq Nutawâm (Greetings to my Tribal Community),

Sometimes, it seems like we are on a roller coaster in pursuit of our goals. We are making great progress, but we must keep focused on lifting our Tribal Nation through better economics, protection of our culture and aboriginal rights, ensuring educational opportunity, and providing services like housing and healthcare to all of our Tribal citizens.

It is easy to get caught up in what is happening in the moment and lose focus of the big picture: the future of our Tribal Nation. The question is, how do we keep our momentum, our positive outlook, and progress toward our goals? The answer is to learn from the bumps in the road, celebrate our triumphs, and always remember to stick together as one Tribal family moving FORWARD.

So let’s celebrate all of the positive things going on in our Tribe, learn lessons from every experience, stay focused, discuss the issues respectfully, find creative solutions and keep pushing forward together.

Chairman’s Column (continued)

Let’s celebrate the progress on our Government and Community Center. Not only will this allow our Tribe to provide services, hold meetings, gather, learn and hold meetings in our own building, the construction and maintenance of this facility mean good jobs for Tribal citizens.

Let’s celebrate the progress of our Tribal Court and their recent grant funding. Let’s thank our Elders Judiciary Committee for their incredible hard work and perseverance in growing and improving our own Tribal justice system. This is incredible progress and is absolutely integral to our sovereignty and self-governance moving forward. Let’s also thank our Development team for working hand in hand with the Elders Judiciary to win valuable court funding.

Let’s celebrate the improvements in the way our Tribe conducts business - especially in our Finance Department. Just as we set out to do, we completely revamped our Tribal finances, hiring a Comptroller, implementing a new software system, ensuring checks and balances, increasing transparency, initiating a comprehensive budget process, and passing stringent audits. Thank you to our Finance Department led by Marjorie Seagraves and to our Treasurer Mark Harding for your efforts, and thank you to all tribal departments for working to bring your departments into the new finance system so we are operating efficiently.

Let’s celebrate our Housing Department and Housing Commission for helping Tribal families to stay in their homes, develop sound financial plans, find creative ways to help with household budgets, and in a few cases, even purchase homes to make sure Tribal families have a safe place to live. This is incredible progress and we thank you for your efforts!

Let’s celebrate the upcoming first anniversary of our Mashpee Wampanoag Health Service clinic, our partnership with IHS, and the ever-growing programs and services offered to keep our Tribal family healthy in a respectful, culturally appropriate manner.

And let’s celebrate our Youth, who are representing our Tribe so well both here at home and throughout Indian Country. Thank you to our smart, beautiful, dignified Powwow Princess Keturah Peters. Thank you to Brian Weeden for his leadership and involvement in youth organizations both here and nationally. Thank you to the youth who participate in Native Tribal Scholars who not only brighten their own futures through their hard work, but also the future of our nation. Thank you to our Summer Turtles participants for your hard work to learn our native language. And thank you to all of the Tribal families and volunteers who support our Youth, give their time to assist these programs, and encourage our children to build a better future while honoring their proud heritage.

Together, we will continue to raise our Nation to new heights in service delivery, opportunity, and community. I ask for your ideas, your energy, and your enthusiasm as we work together, pushing forward, toward our collective goals as a Tribal family.

Foster Care Providers Needed

The ICWA (Indian Child Welfare Act 1978) is desperately in need of acquiring Foster Homes, Foster Parents, and emergency Placement Homes for children.

We ask you to look deep down into your hearts and think about the positive, life-changing impact you can have on a native child in need of a temporary home. Children deserve a loving home; could you be that one family for them? If you can be that foster parent, the ICWA department is offering stipends to help with the care and the cost of providing a safe home environment that is nurturing and has lots of love! Please contact Catherine at the ICWA office at (508) 419-6017 x 604 for more information.

The Bureau of Indian Affairs (BIA) has notified the Mashpee Wampanoag Tribe that our Tribal-State Compact will need to be further negotiated before it can be approved. While disappointing, this possibility was anticipated in our agreement with the Commonwealth, which requires that we return to the negotiating table immediately to address the outstanding issues in the Compact and come to a revised agreement. We believe that these issues can be resolved quickly and cooperatively, and the Compact can be re-submitted to the BIA for swift action.

The Mashpee Wampanoag Tribe and the Commonwealth have negotiated respectfully and collaboratively to come to an initial agreement, and we will continue to negotiate in that same spirit. It is critical to the economic development plans of our Tribe, the City of Taunton and the surrounding region, and the Commonwealth as a whole that we reach an agreement as soon as possible. Our destination resort casino in Taunton will create thousands of construction jobs and permanent careers, and will energize the regional economy.

Tribal-State Compact (continued)
the acquisition of land in Taunton, the negotiation of an Intergovernmental Agreement with the City, the overwhelming passage of a popular referendum, and the negotiation of a Compact by July 31. In addition, our application for land in trust is currently under review, our Gaming Ordinance was approved by the National Indian Gaming Commission, scoping sessions for both federal and state environmental reviews have been completed, and we have made an initial payment of $1.5 million to the City of Taunton as part of our agreement with the City.

Let me be clear, the Tribal-State Compact and our land in trust application are two totally separate processes with no bearing on each other. We are very pleased with the progression of our land in trust application and continue to work toward a positive determination.

The Mashpee Wampanoag Tribe has the inevitable right to conduct gaming in our ancestral homeland. We look forward to immediately getting back to work with the Commonwealth on a revised Compact so that there will be no delay in bringing good jobs and revenue to our Tribe and the Commonwealth.
