

The New Wyandotte Bantam Book has been published!

It is with much joy and relief that I announce the republication of the ABA book, Wyandotte Bantams. It has taken me several years to finish this book on one of my favorite breeds! The true credit goes to the late Fred Jeffery who created the original work and I pray I did justice with our updated version.

The new cover and spiral binding is fantastic! The Silver Laced Wyandotte Bantam male that graces the cover is Brian Knox's Champion Bantam from the 2014 ABA 100th Anniversary National Meet. This was a historical win for a Wyandotte Bantams and even more unusual for a Silver Laced. Beautiful example of the breed and variety and that was why he was chosen for the cover.

There is a color photo section which shows a wide assortment of the different varieties of Wyandotte Bantams including the newly recognized Mottled. I do not claim these are perfect examples of the breed but I wanted to show all the gorgeous colors we have available in Wyandotte bantams.

In this day and age of instant media, it is hard to get the top breeders to sit and write an article for others to enjoy. Many thanks to Mr. Matt McCammon and Mr. Dave Pauls for their articles and encouragement on this project. They put a modern spin on Wyandotte Bantams that was so desperately needed. I also want to thank out Secretary, Karen Unrath for her patience and creativity in helping me finish this project! She is truly the ABA's most valuable asset!

I also want to thank those who went before us like Dr. Charles Wabeck, Dr. V.L. Patterson, Dr. Ron Simpson and Dr. Edgar Petty to name a few who's historical articles I also included in this printing. I hope that by sharing the knowledge they bestowed upon me, it will help the breed!

Enough of the preview, get online at [bantamclub.com](http://bantamclub.com) and order your copy today of this limited edition of Wyandotte Bantams!
