**Public Comments on Non-Agenda Items:**
Shelli Devall stated that she was told there were not enough math books and had to purchase one for her daughter online. She asked if there is a plan to purchase new Math books in the High School. Buck explained that there is no plan for this school year, but has a curriculum team in place to look into adoption for next school year to compliment what is already in place at the Elementary level. He explained that it is a lengthy process. Dave Holmer asked to have a progress report from the Math committee.

Shelli Devall then asked if the Community Service requirements had been changed for Seniors. Cindy Christopherson commented that beginning in the Sophomore year, the requirement is 16 meaningful, purposeful hours.

Jan Kittelson asked if the Mc Cleary decision to fully fund education was one-time funding since it sounds to him like the District may be running in the “red”. McKenzie explained it was yearly funding based on funding models, and that while OSPI is funding the District, they are also taking levy dollars away, so it is basically a “wash”.
