

FINNISH CENTER FOR ARTIFICIAL INTELLIGENCE

FCAI membership options for companies

Why to participate

Is keeping up to date with the latest developments in AI important for your business?
Do you need to hire people with right AI skills to reach your business objectives?
Would you benefit from networking with other public and private sector actors in the field of AI?
If you answered yes to any of the above questions, then we believe you will benefit from FCAI.

We will keep you **up-to-date** on the latest development of this rapidly progressing field. We will provide you a connection to the academic world of AI with the highest level national and international **networks**. We will invite you to events or to give lectures where you can meet students and other professionals, which may benefit you in the form of new **recruitments**, novel **collaborations**, and **exchange of ideas** with other public and private sector actors. We will give you an opportunity to have a say of the topics to which the Finnish AI research is focused, and what are the relevant skills to **teach** for the students of AI. By joining FCAI you will learn to know us and we will learn to know you: this matching will make possible **joint research projects** where we can help you solve your specific problems and to create new AI-based business models and innovations.

We hope that you can help us focus our research and teaching efforts, as we believe this leads not only to benefit to the society but to better science.

All of the partners will benefit from being a part of the FCAI ecosystem:

- Connection to academic world and to national and international networks
- Connection to students, channels for recruitment
- Keeping up-to-date with the state-of-the-art in AI and AI applications
- Co-creation of new AI-based business models and AI innovations in separately agreed-on projects
- Networking, publicity, possibilities to promote own agenda
- Access to ecosystem events and publications, newsletter
