INVESTABLE IMPACT TOOLKIT

Basics for enterprises to begin identifying, tracking, and articulating impact

The future of Greater Philadelphia (and the world) relies on investment in the entrepreneurs and enterprises creating solutions to our greatest challenges. This toolkit was created to assist you in establishing a foundation for and common language around identifying, tracking, and articulating your initiative or enterprise's positive impact.

WHY?

Advance your enterprise
- Attract impact-motivated investment
- Recruit passionate & talented staff
- Attract aligned partners & customers
- Align impact language with sector standards

Advance your enterprise's impact
- Understand impact on beneficiaries
- Understand impact viability
- Understand impact risk

WHO?

ENTERPRISES
For-profit enterprises advancing positive impact through business practices, products, and/or services.

Funds
Grant, loan, or equity funds advancing positive impact through an investment thesis and investments in impact-driving solutions.

REAL ESTATE INITIATIVES
Real estate projects advancing positive impact in the neighborhoods and communities in which they operate.

TOOLKIT CONTENTS

1. CREATE A BASELINE IMPACT STATEMENT
2. TRACK & MEASURE IMPACT
3. PARTNER TO ACCELERATE IMPACT

IN PARTNERSHIP:
This resource was created with the support and partnership of Ben Franklin Technology Partners and the Investors Circle Philadelphia Chapter with partial funding from the U.S. Economic Development Administration (EDA).
Create a baseline impact statement by answering the following questions, informed by the Impact Management Project’s 5 Dimensions of Impact. Share your Impact Statement by utilizing the 1-pager and slide design templates below.

**Did you know?**

The Impact Management Project (IMP) 5 Dimensions of Impact was created by a community of practice with 2,000+ organizations building global consensus on measuring, assessing, and reporting impact.

What are your goals for tracking impact?

Have intended impact outcomes been identified? Have associated indicators been identified?

What data can inform tracking? What are the sources for this data?

Do you have the in-house resources (i.e. time, expertise, etc) to conduct this tracking?

What additional resources might you need? What budget do you have for these resources?

Who cares that you track impact? Have you gotten buy-in from stakeholders?

QUESTIONS TO CONSIDER BEFORE TRACKING IMPACT
