Information about Over-The-Air Digital Multicast

Most digital over-the-air television stations broadcast several signals at once. TBN stations “multi-cast” the following TV Networks: TBN; Hillsong Channel, JUCE TV/Smile, Enlace USA, and Salsa. Viewers who purchase either set-top-boxes or purchase digital TV receivers with built in over-the-air tuners may watch any of these channels free. Visit your local electronics store or perform an online search for more information.

**Please note that JUCE TV shares airtime on the “.3” digital subchannel along with the Smile children’s network. JUCE TV can be seen on this over-the-air subchannel from 7:00 p.m. to 7:00 a.m. (local time) in each market.*

SES-4	22 Deg West	C-Band FTA Digital

JUCE TV is carried unscrambled on many satellite systems (listed above). This means with the proper dish installed, owners can view JUCE TV for free. Viewers in North America can visit www.glorystar.tv for more information.

It is our goal to maintain an accurate list of distribution stations. If you do notice something listed in error, please contact us at social@juce.tv so your correction can be included in future revisions of this list.

Latest Revision: March 23, 2018
