   **To Consider Installing Guard Rails at the Lewis Turnout Recycling Center**
Chairman Stuart stated he knew this was unusual to be talking about CCTC business but one of the employees who works at the Lewis Turnout Recycling Center on Saluda Road came before Council a few months ago asking for Guard rails to be installed in front of the site. They were fearful of the unsafe traffic on the road and for the citizens turning in to get to the recycling center. The gate entrance has since been changed to the side for the employees. Since CCTC and Council has already approved the James F. Wherry Road project with Council’s approval they could do a change order to include the guard rails to be installed in front of the recycling center, the money would go towards our 25 percent C Funds. He stated John McCarter with DOT stated there would not be an issue putting the guard rails up.

Vice Chairman Branham stated the employees who work at this site are very appreciative of all of the Council’s efforts and accomplishments that have been done to keep them safe.
