It is the purpose of this Article to regulate sexually oriented businesses to promote the health, safety, morals, and general welfare of the citizens of the Town of Great Falls, and to establish reasonable and uniform regulations to prevent the continued deleterious location and concentration of sexually oriented businesses within the Town of Great Falls. The provisions of this Article have neither the purpose nor effect of imposing a limitation or restriction on the content of any communicative materials, including sexually oriented materials. Similarly, it is not the intent or effect of this Article to restrict or deny access by adults to sexually oriented materials protected by the First Amendment, or to deny access by the distributors and
exhibitors of sexually oriented entertainment to their intended market. Neither is it
the intent or effect of this Article to condone or legitimize the distribution of obscene
material.

9.1 Location of sexually oriented businesses; nonconforming uses.

(7) No viewing room may be occupied by more than one person at any time.

(8) The premises shall be equipped with overhead lighting fixtures of sufficient intensity to illuminate every place to which patrons are permitted access at an illumination of not less than one foot-candle as measured at the floor level.

ARTICLE VI. DIMENSIONAL REQUIREMENTS

Sec. 46-191. Residential dimensional requirements.

Lot size, building coverage, yard setbacks and building heights of residential structures and uses shall be governed by the requirements set forth in table 1.

Sec. 46-192. Nonresidential dimensional requirements.

Sec. 46-193. Yard requirements.

(a) Corner lots. Minimum side yards for corner lots shall be the same as minimum front requirements; however, this requirement shall not be applied so as to reduce the buildable width of a corner lot of record as of the effective date of the ordinance from which this chapter derives to less than 30 feet.

(b) Front yard setbacks for dwellings. The setback requirements of this chapter for dwellings shall not apply to any lot where the average existing setback line on lots located wholly or in part within 100 feet on each side of such lot, within the same block and zoning district and fronting on the same side of the street or road as such lot is less than the minimum setback required. In such cases the setback on such lots may be less than the required setback, but not less than the average setbacks on the aforementioned lots, and in no case less than ten feet from the street or road right-of-way.

(c) Double-frontage lots (through lots, or lots that are not corner lots, but that front on more than one street). Front yard requirements shall be observed for principal and accessory buildings on each street frontage; however the provisions of this section shall not be applied so as to reduce the buildable width or depth of double-frontage lots of record as of the effective date of the ordinance from which this chapter derives to less than 30 feet.

Group housing development means two or more principal residential structures located on lot.

(b) Purpose. The purpose of allowing group housing developments is to allow flexibility in design of residential areas, and to achieve more desirable development characteristics than would be possible through piecemeal development of small individual parcels.

(c) Types of residential structures permitted. Group housing developments may contain the following types of residential structures within the following specified districts:

(1) D-1 development district: Single-family detached, two-family detached.
(2) R-1 low-density residential district: Single-family detached, two-family detached.
(3) R-2 medium-density residential district: Single-family detached, two-family detached.
(4) R-3 high-density residential district: Single-family detached, two-family detached, multifamily.
(5) C-1 central commercial district: Multifamily.
(6) C-2 general commercial district: Multifamily.

(d) Minimum lot size: No group housing project shall be established on a lot having less than 20,000 square feet.

(e) Lot area per dwelling unit. Any group housing project shall conform to the minimum lot area per dwelling unit for the district in which it is located as provided by sections 46-191 – 46-195.

(f) Minimum yard setback requirements. All buildings and structures established in connection with a group housing development shall comply with the front, side and rear yard setbacks established for the district in which the development is located as provided in sections 46-191 – 46-195; except no principal or accessory building shall be less than 15 feet from any side or rear property line; and further provided that such front, side and rear setbacks shall
apply only to yards adjacent to property lines and shall not apply to each structure individually.

(g) **Building separation or internal yards.** In order to provide adequate internal yards and open spaces within group housing developments, the following building separations shall be observed:

1. No principal structures shall be separated by a distance of less than 20 feet.
2. No principal structures shall be separated by a distance of less than 40 feet measured from the front of one structure to the front of a facing structure.
3. No principal structures shall be separated by a distance of less than 100 feet measured from the front of one structure to the rear of another structure when one structure faces the rear of another structure within the same group development.

(h) **Maximum height of structures.** Maximum height of structures shall conform to height regulations for the district in which the development is located as provided by sections 46-191 – 46-195.

(i) **Off-street parking.** Off-street parking shall be provided for all structures or uses located within a group housing project as provided by section 46-112.

(j) **Nonconforming uses removed.** All nonconforming uses or structures shall be removed from the site before any construction on the group housing project is begun.

(k) **Administrative procedures.** Before the zoning administrator shall issue a zoning permit for the construction of any group housing project, the following administrative review procedures shall be completed:

1. Plats and other necessary information shall be submitted to the planning commission for review.
2. The planning commission shall review the submitted information and shall find that design requirements stipulated above have been met and further that the group housing development as proposed is in harmony with the intent of this chapter and, if the required findings are made, shall approve the proposal and certify such approval to the zoning administrator.
3. If the planning commission fails to either approve or disapprove the proposal within a period of 60 days from the submission of all required information, the zoning administrator may issue a zoning permit for the construction of the group housing development.
Sec. 46-227. Mobile home parks.

(a) Definitions. The following words, terms and phrases, when used in this section, shall have the meanings ascribed to them in this subsection, except where the context clearly indicates a different meaning.

Mobile home means a detached residential dwelling unit designed for transportation after fabrication on streets and highways on its own wheels and arriving at the site where it is to be occupied as a dwelling complete and ready for occupancy except for minor and incidental unpacking and assembly operations, location on jacks or other temporary or permanent foundation, connection to utilities, and the like.

Mobile home park means a parcel of land under single ownership that has been planned and improved for the placement of mobile homes for nontransient use.

Mobile home space means the total area reserved for the exclusive use of the occupants of a mobile home.

Mobile home stand means that part of an individual lot that has been reserved for the placement of the mobile home, appurtenant structures or additions. Expandable rooms, enclosed patios, garages or structural additions are considered part of a mobile home stand area.

Property line means the recorded boundary of a mobile home park.

(b) Purpose. The purpose of regulations governing mobile home park construction is to ensure that minimum design standards are followed that will protect properties adjacent to mobile home parks from potentially depreciating effects and also to afford residents of mobile homes assurance that an acceptable residential environment will be created.

(c) Location. Mobile home parks are permitted in D-1, R-3 and C-2 districts, subject to the regulations of this section.

(d) Area requirements.

(1) The minimum area for a mobile home park shall be three acres.
(2) The number of mobile homes per acre shall not exceed eight.

(2) If the driveway is not a through street, it shall have a minimum 50-foot radius turnaround or cul-de-sac.

(3) Two off-street automobile parking spaces shall be provided for each mobile home. These areas should be located on or adjacent to the mobile home spaces. Parking areas may be provided along one side of a private driveway if such driveway is at least 32 feet wide, and along both sides if such driveway is at least 40 feet wide. Vertical or battered concrete curb or other appropriate and durable car stops shall be installed at the end of all head-in parking bays.

(f) Setbacks and clearances.

(1) All mobile homes and all buildings or structures within a mobile home park shall have a minimum setback of 25 feet from the park’s side or rear property line, and the mobile home park shall comply with the required front yard setback for the district in which it is located. Parking facilities and driveways shall not be permitted in the side and rear yard setbacks for a distance of ten feet from the property line.

Sec. 46-346. Establishment, membership, proceedings.

(a) Established members. A zoning board of appeals is established, which shall consist of three members who are residents of the area of zoning jurisdiction and appointed by the council. The term of office of the members of the board shall be three years, provided, however, that the initial board established shall serve staggered terms. Members may be removed for cause by the council on written charges and after a public hearing. Vacancies shall be filled for the unexpired term of any member whose term becomes vacant. Members shall not hold any other public office.

(b) Proceedings. The board shall elect one of its members chair, who shall serve for one year or until he is reelected or his successor is elected and qualified. The board shall appoint a secretary, who may be an officer of the town or of the planning commission. The board shall adopt rules in accordance with the provisions of any chapter or resolution adopted pursuant to this chapter. Meetings of the board shall be held at the call of the chair and at such other times as the board may determine. The chair or, in his absence, the acting chair, may administer oaths and compel the attendance of witnesses by subpoena. The board shall keep minutes of its proceedings, showing the vote of each member upon each question, or if absent or failing to vote, indicating such fact, and shall keep records of its examinations and other official actions, all of which shall be immediately filed in the office of the board and shall be a public record.

(c) Hearings, appeals, notices.

(1) Appeals to the board may be taken by any persons aggrieved or by any officer, department, board or bureau of the town or county affected by any decision of the zoning administrator. Such appeal shall be taken within a reasonable time, as provided by the rules of the board, by filing with the zoning administrator from whom the appeal is taken and with the board a notice of appeal specifying the grounds thereof. The zoning administrator shall forthwith transmit to the board all the papers constituting the record of all actions upon which the appeal is taken.

(2) The board shall fix a reasonable time for hearing the appeal, give public notice thereof as well as due notice to the parties in interest, and decide the same within a reasonable time. At the hearing, any party may appear in person or by agent or attorney.

(d) Stay of proceedings. An appeal stays all proceedings in furtherance of the action appealed from unless the zoning administrator certifies to the board after notice of appeal is filed with him that by reason of facts stated in the certificate a stay would in this opinion cause imminent peril to life or property. In such case, proceedings shall not be stayed otherwise than by a restraining order, which may be granted by the board or by a court of record on application, on notice to the administrative official from the appeal is taken and on due cause shown.
Sec. 46-347. Powers and duties.

(a) Generally. The board of adjustment shall have the powers and duties specified in this section.

(b) Administrative review. The board shall hear and decide appeals when it is alleged that there is error in the order, requirement, decision or determination made by the zoning administrator in the enforcement of this chapter.

(c) Variances. The board may authorize on appeal in specific cases such variances from the terms of this chapter as will not be contrary to the public interest where, owing to special conditions a literal enforcement to the provisions of this chapter would result in unnecessary hardship. As required by S.C. Code 1994, 6-29-800, a variance from the terms of this chapter shall not be granted by the board unless and until:

1. A written application for a variance is submitted demonstrating:
   (a) There are extraordinary and exceptional conditions pertaining to the particular piece of property;
   (b) These conditions do not generally apply to other property in the vicinity;
   (c) Because of these conditions, the application of the ordinance to the particular piece of property would effectively prohibit or unreasonably restrict the utilization of the property; and
   (d) The authorization of a variance will not be of substantial detriment to adjacent property or to the public good, and the character of the district will not be harmed by the granting of the variance.

2. Notice of public hearing shall be posted on the property for which variance is sought and shall be published at least 15 days prior to the public hearing in a newspaper of general circulation in the area in which the property is located.

3. The hearing shall be held. Any party may appear in person, by agent or by attorney.

4. The board makes the following findings:

   (a) That the requirements of subsection (c)(1) of this section were met by the applicant for a variance.
   (b) That the reasons set forth in the application justify the granting of the variance, and that the variance is the minimum variance that will make possible the reasonable use of the land, building or structure.
   (c) That the granting of the variance will be in harmony with the general purpose and intent of this chapter, and will be injurious to the neighborhood, or otherwise detrimental to the public welfare.
In granting any variance, the board of adjustment may prescribe appropriate conditions and safeguards in conformity with this chapter. Violation of such conditions and safeguards, when made part of the terms under which the variance is granted, shall be deemed a violation of this chapter and punishable under section 1-6. With respect to uses of land, buildings and other structures, this chapter is declared to be a definition of the public interest by the council; and the spirit of this chapter will not be observed by any variance that permits a use not generally permitted in the district involved or any use expressly or by implication prohibited by the terms of this chapter in the district. Therefore, under no circumstances shall the board grant a variance to permit a use not generally permitted in the district involved, or any use expressly or by implication prohibited by the terms of this chapter in the district.

(d) Actions of board concerning appeals. In exercising the powers set forth in subsections (b) and (c) of this section, the board may, in conformity with the provisions of this chapter, reverse or affirm, wholly or partly, or may modify the order, requirement, decision or determination appealed from and may make such order, a requirement, decision or determination as ought to be made, and to that end shall have the powers of the administrative official from whom the appeal is taken.

Sec. 46-348. Appeals.

Any person jointly or severally aggrieved by any decision of the board of appeals; or any taxpayer, or any officer, department, board or bureau of the town may present to the circuit court a petition, duly verified, setting forth that a decision of the board is illegal, in whole or in part, specifying the grounds of the illegality. Such petition shall be presented to the court within 30 days after the filing of the decision.

Sec. 46-349. Functions.

(a) It is the intent of this article that all questions of administration and enforcement shall first be presented to the zoning administrator, and that such questions shall be presented to the board of appeals only on reference by or appeal from the zoning administrator, and that recourse from the decisions of the board shall be to the courts as provided by law.

(b) It is further the intent of this article that the function of the council under this article shall not include hearing and deciding questions of interpretation and enforcement that may arise, but that the council shall have only the responsibility for acting on proposals for amendment or repeal of this chapter, and for establishing a schedule of fees and charges.
Sec. 46-350 – 46-380. Reserved.
ARTICLE XI. AMENDMENTS

Sec. 46-381. Procedure.

(a) Generally. In amending the text of this chapter or in amending the zoning map the procedure shall be as prescribed in this section.

(b) Initiation of proposals for amendments. Any individual, corporation or agency, public or private, may initiate a proposal for an amendment. Such request shall be submitted in writing to the zoning administrator, along with payment of a zoning amendment fee, which may be established by the council.

(c) Minimum area requirements for creation of new commercial and industrial districts. No separate commercial or industrial district of less than two acres shall be created by any amendment to this chapter.

(d) Planning commission study and report to the council. All proposed amendments shall be submitted to the zoning administrator, who shall then refer the proposals for amendment to the planning commission. Before enacting an amendment to this chapter the Planning Commission shall hold a public hearing on behalf of the Town Council as required by SC Code 1994, § 6-29-760. The Planning Commission shall have 30 days within which to submit a report and recommendation to the council. Such recommendation shall be advisory only. If the Planning Commission does not submit its report within the prescribed time, the council may proceed to act on the proposed amendment. Effective 11-15-99

(e) Posting of property. When a proposed amendment affects the district classification of particular pieces of property, the zoning administrator shall cause to be conspicuously located on or adjacent to the property affected one hearing notice for every 100 feet of street frontage or portion thereof. Such notice shall be posted at least 15 days prior to the hearing and shall indicate the nature of the change proposed, identification of the property affected, and time, date and place of the hearing.

(f) Reconsideration of proposed amendments. Action shall not be initiated for a zoning amendment requesting the same change affecting the same parcel of property more often than once every 12 months.
Secs. 46-382 - 46-410. Reserved.
ARTICLE XII. FEES AND CHARGES

Sec. 46-411. Schedule.

The council may establish a schedule of fees and charges for zoning permits, certificates of occupancy, appeals, amendments and other matters pertaining to this chapter. This schedule of fees shall be posted in the office of the zoning administrator and may be altered or amended only by the council.

Sec. 46-412. No action until fees paid.

No permit, certificate or variance shall be issued or granted unless such fees or charges have been paid in full, nor shall any action be taken on proposed amendments or on proceedings before the board of appeals unless applicable charges and fees have been paid in full.
