Add: f. Be accompanied by a minimum of six (6) copies of Construction Plans as described in these regulations. Revised text will read: Insert statement “f” which was removed from section 3-2.2 Preliminary Plat. No new text to the insert. Tab 9
g. 1st Reading of CCLDTA18-12: Article 4 § 4-2 Preliminary Plat

Remove: Grades and invert elevations of sewers shall be shown. **Revised text will read:** Size and location of existing sewers, water mains, drains, culverts or other underground facilities within the street or within the right-of-way of streets or roads adjoining the tract. Tab 9

h. 1st Reading of CCLDTA18-13: Article 4 § 4-3 Construction Plans

Remove: Construction plans shall be prepared for all required improvements by a registered South Carolina Engineer at a convenient scale of not less than one inch equals 100 feet.

The Construction Plans shall include the following if such an improvement is proposed in the subdivision:

1. Profiles showing existing and proposed elevations along the centerline of all new roads. The elevation along the centerline of existing roads shall be shown within one hundred (100) feet of their intersection with new roads. Approximate radii of all curves, lengths of tangents, and central angles on all streets.

2. Where steep slopes exist, the County Road Department may require that cross sections of all proposed streets at one-hundred-foot stations shall be shown at five (5) points as follows: On a line at right angles to the center line of the street, and said evaluation points shall be at the center of the street, each property line, and points twenty-five (25) feet inside each property line.

3. Plans and profiles showing the locations and typical cross section of street pavements including curbs and gutters, sidewalks, drainage easements, rights of ways, manholes, and catch basins; the locations of street trees, street lighting standards, and street signs; the location, size and invert elevations of existing and proposed sanitary sewers, storm water drains, and fire hydrants, showing connection to and exact location and size of all water, gas, or other underground utilities or structures.

4. Location, size, elevation, and other appropriate description of any existing facilities or utilities, including, but not limited to, existing streets, sewers, drain, water mains, easements, water bodies, streams, and other pertinent features such as swamps, wetlands, railroads, buildings, the point of connection to proposed facilities and utilities within the subdivision. The water elevations of adjoining lakes or streams at the date of the survey and the approximate 100-year flood elevations of such lakes or streams. All elevations shall be referred to the Mean Sea Level Datum where public water and/or public sewers are to be installed.

5. The acreage of each drainage area affecting the proposed subdivision.

6. Topography at a contour interval of two (2) feet, referred to sea level datum when public water or public sewers are to be installed or portions of the subdivision would be inundated by a 100-year frequency flood.

7. All specifications and references required by the construction standards and specifications of Chester County and other entity providing a utility, and the Department of Health and Environmental Control.

8. A site grading plan showing proposed finished contours when any major contour changes or filling for flood protection is proposed in the subdivision.

9. Title, name and address, telephone and signature of the South Carolina Registered Engineer and Surveyor responsible for the plans and date, including revision dates.

**Revised text will read:** This section will be reserved for future use. Tab 9
i. 1st Reading of CCLDTA18-14: Article 4 § 4-5 Construction Plans

Add: 4-5 Construction Plans

Construction plans shall be prepared for all required improvements by a registered South Carolina Engineer at a convenient scale of not less than one-inch equals 100 feet.

The Construction Plans shall include the following if such an improvement is proposed in the subdivision:

1. Profiles showing existing and proposed elevations along the centerline of all new roads. The elevation along the centerline of existing roads shall be shown within one hundred (100) feet of their intersection with new roads. Approximate radii of all curves, lengths of tangents, and central angles on all streets.
2. Where steep slopes exist, the County Road Department may require that cross-sections of all proposed streets at one-hundred-foot stations shall be shown at five (5) points as follows: On a line at right angles to the center line of the street, and said evaluation points shall be at the center of the street, each property line, and points twenty-five (25) feet inside each property line.
3. Plans and profiles showing the locations and typical cross-section of street pavements including curbs and gutters, sidewalks, drainage easements, rights-of-ways, manholes, and catch basins; the locations of street trees, street lighting standards, and street signs; the location, size and invert elevations of existing and proposed sanitary sewers, storm water drains, and fire hydrants, showing connection to and exact location and size of all water, gas, or other underground utilities or structures.
4. Location, size, elevation, and other appropriate description of any existing facilities or utilities, including, but not limited to, existing streets, sewers, drain, water mains, easements, water bodies, streams, and other pertinent features such as swamps, wetlands, railroads, buildings, at the point of connection to proposed facilities and utilities within the subdivision. The water elevations of adjoining lakes or streams at the date of the survey and the approximate 100-year flood elevations of such lakes or streams. All elevations shall be referred to the Mean Sea Level Datum where public water and/or public sewers are to be installed.
5. The acreage of each drainage area affecting the proposed subdivision.
6. Topography at a contour interval of two (2) feet, referred to sea level datum when public water or public sewers are to be installed or portions of the subdivision would be inundated by a 100-year frequency flood.
7. All specifications and references required by the construction standards and specifications of Chester County and other entity providing a utility, and the Department of Health and Environmental Control.
8. A site grading plan showing proposed finished contours when any major contour changes or filling for flood protection is proposed in the subdivision.
9. Title, name and address, telephone and signature of the South Carolina Registered Engineer and Surveyor responsible for the plans and date, including revision dates.

Revised Text: Create Section 4.5 for Construction Plans. No new text, all copied from section 4-3.

Tab 9

9. Executive Session

a. Economic Development Matter Regarding Project 1508
b. Receive Legal Advice to Discuss the Refinancing of the Gateway
10. Council Actions Following Executive Session
   a. Action Taken on Economic Development Matter for Project 1508

12. Adjourn

Pursuant to the Freedom of Information Act, the Chester News & Reporter, The Herald in Rock Hill, SC, WSOC-TV, Channel 9 Eyewitness News, the Mfg. Housing Institute of SC, WRHI Radio Station, C&N2 News, WCNC News and Capitol Consultants were notified and a notice was posted on the bulletin board at the Chester County Government Building 24 hours prior to the meeting.

Guidelines for Addressing Council

Citizens Comments:
- Please sign the sign-in sheet upon arrival
- Must state name, address and telephone number
- Each citizen will be limited to three minutes
- Large groups (more than 5) speaking on the same position on an issue must appoint one representative to speak on behalf of the group

Public Hearings:
- Please sign the sign-in sheet upon arrival
- Must state name, address and telephone number
- Each speaker will be limited to a three-minute presentation
- Large groups (more than 5) speaking on the same position on an issue must appoint one representative to speak on behalf of the group

When introduced, please:
- Approach the podium
- Speak loudly and clearly making sure that the microphone is not obstructed
• Do not address the audience – direct all comments to Council
• Do not approach the Council table unless directed
• Allow Council the opportunity to ask questions when finished

Anyone addressing Council will be called out of order if you:
• Use profanity
• Stray from the subject
• Make comments personally attacking an individual member of Council
