Planning Commission voted 7-0 to approve.
k. 2nd Reading of CCLDTA18-13: Article 4 § 4-3 Construction Plans

**Remove:** Construction plans shall be prepared for all required improvements by a registered South Carolina Engineer at a convenient scale of not less than one-inch equals 100 feet. The Construction Plans shall include the following if such an improvement is proposed in the subdivision:

1. Profiles showing existing and proposed elevations along the centerline of all new roads. The elevation along the centerline of existing roads shall be shown within one hundred (100) feet of their intersection with new roads. Approximate radii of all curves, lengths of tangents, and central angles on all streets.

2. Where steep slopes exist, the County Road Department may require that cross-sections of all proposed streets at one-hundred-foot stations shall be shown at five (5) points as follows: On a line at right angles to the center line of the street, and said evaluation points shall be at the center of the street, each property line, and points twenty-five (25) feet inside each property line.

3. Plans and profiles showing the locations and typical cross-section of street pavements including curbs and gutters, sidewalks, drainage easements, rights-of-ways, manholes, and catch basins; the locations of street trees, street lighting standards, and street signs; the location, size and invert elevations of existing and proposed sanitary sewers, storm water drains, and fire hydrants, showing connection to and exact location and size of all water, gas, or other underground utilities or structures.

4. Location, size, elevation, and other appropriate description of any existing facilities or utilities, including, but not limited to, existing streets, sewers, drain, water mains, easements, water bodies, streams, and other pertinent features such as swamps, wetlands, railroads, buildings, at the point of connection to proposed facilities and utilities within the subdivision. The water elevations of adjoining lakes or streams at the date of the survey and the approximate 100-year flood elevations of such lakes or streams. All elevations shall be referred to the Mean Sea Level Datum where public water and/or public sewers are to be installed.

5. The acreage of each drainage area affecting the proposed subdivision.

6. Topography at a contour interval of two (2) feet, referred to sea-level datum when public water or public sewers are to be installed or portions of the subdivision would be inundated by a 100-year frequency flood.

7. All specifications and references required by the construction standards and specifications of Chester County and other entity providing a utility, and the Department of Health and Environmental Control.

8. A site grading plan showing proposed finished contours when any major contour changes or filling for flood protection is proposed in the subdivision.

9. Title, name and address, telephone and signature of the South Carolina Registered Engineer and Surveyor responsible for the plans and date, including revision dates.

**Revised text will read:** This section will be reserved for future use. Planning Commission voted 7-0 to approve.

l. 2nd Reading of CCLDTA18-14: Article 4 § 4-5 Construction Plans

**Add:** 4-5 Construction Plans

Construction plans shall be prepared for all required improvements by a registered South Carolina Engineer at a convenient scale of not less than one-inch equals 100 feet.

The Construction Plans shall include the following if such an improvement is proposed in the subdivision:
1. Profiles showing existing and proposed elevations along the centerline of all new roads. The elevation along the centerline of existing roads shall be shown within one hundred (100) feet of their intersection with new roads. Approximate radii of all curves, lengths of tangents, and central angles on all streets.

2. Where steep slopes exist, the County Road Department may require that cross-sections of all proposed streets at one-hundred-foot stations shall be shown at five (5) points as follows: On a line at right angles to the center line of the street, and said evaluation points shall be at the center of the street, each property line, and points twenty-five (25) feet inside each property line.

3. Plans and profiles showing the locations and typical cross-section of street pavements including curbs and gutters, sidewalks, drainage easements, rights-of-ways, manholes, and catch basins; the locations of street trees, street lighting standards, and street signs; the location, size and invert elevations of existing and proposed sanitary sewers, storm water drains, and fire hydrants, showing connection to and exact location and size of all water, gas, or other underground utilities or structures.

4. Location, size, elevation, and other appropriate description of any existing facilities or utilities, including, but not limited to, existing streets, sewers, drain, water mains, easements, water bodies, streams, and other pertinent features such as swamps, wetlands, railroads, buildings, at the point of connection to proposed facilities and utilities within the subdivision. The water elevations of adjoining lakes or streams at the date of the survey and the approximate 100-year flood elevations of such lakes or streams. All elevations shall be referred to the Mean Sea Level Datum where public water and/or public sewers are to be installed.

5. The acreage of each drainage area affecting the proposed subdivision.

6. Topography at a contour interval of two (2) feet, referred to sea level datum when public water or public sewers are to be installed or portions of the subdivision would be inundated by a 100-year frequency flood.

7. All specifications and references required by the construction standards and specifications of Chester County and other entity providing a utility, and the Department of Health and Environmental Control.

8. A site grading plan showing proposed finished contours when any major contour changes or filling for flood protection is proposed in the subdivision.

9. Title, name and address, telephone and signature of the South Carolina Registered Engineer and Surveyor responsible for the plans and date, including revision dates.

Revised Text: Create Section 4.5 for Construction Plans. No new text, all copied from section 4-3.

Planning Commission voted 7-0 to approve.

m. Update on Trash Collection Pickup for March-Chairman Stuart

Chairman Stuart stated 682 bags of trash 5 miscellaneous items and 18 tires were picked up for the month of March.

6. New Business

a. From CCTC:

b. Approval for Reimbursement to the County Roads Department for Road Maintenance from July 1st, 2018 to April 2018 in The Amount of $54,991.86 dollars. Council Member Lucas motioned to approve, second by Council Member Jordan. Vote was 6-0 to approve.

c. Discussion on Planning and Growth for Chester County

Council Member Wilson stated the rezoning request brought last month by LGI also brought attention to some problems the County may face as growth continues to come to the County. Other counties and States have more restrictions and control of new development. Do we need impact fees or committees?
Chairman Stuart stated he had met with Catawba Regional Council of Governments, Building and Zoning and Economic Development to discuss impact fees. The Council of Governments is currently putting a plan together but could take nine to ten months. Money for impact fees must be spent on what it’s appropriated for, if the money is not used within two years it goes back. Impact fees does not pay for salary’s but capital needs only.

Council Member Jordan asked what could Council do to get the study going. Chairman Stuart stated currently we’re waiting on the COG to come back with the numbers but had discussed with Joanie Winters, County Attorney about development agreement ordinance that Council could pass, the developer would have to agree and comply with the regulations. After much discussion Council agreed to have someone from Catawba Regional to come and speak at a special called meeting held in the afternoon.

d. Lando Fire District- Request Approval to Pursue the Safer Grant to Hire Firefighters-Eddie Murphy-This was taken off the agenda.

7. Executive Session-Council Member Guy motioned to go into Executive Session, second by Council Member Lucas. Vote was 6-0 to approve.

   a. Economic Development Matter Project 1508
   b. Economic Development Matter Project 1817

8. Council Actions Following Executive Session

   a. Action Taken Concerning Economic Development Project 1508-Council Member Oliphant motioned to allow Karlisa Dean to proceed and negotiate with Project 1508
   b. Action Taken Concerning Economic Development Matter Project 1817-This was taken as information only.

9. Council Comments
   Chairman Stuart stated Earth Day was April 21st at Wylie Park from 8 am to 2 pm. Council Member Lucas announced he has a new great grandson.

10. Adjourn
   Council Member Oliphant motioned to adjourn, second by Council Member Jordan. Vote was 6-0 adjourn.

K. Shane Stuart, County Supervisor/ Chairman
Karen Lee, Clerk to Council
