MINUTES

Grand Valley Metropolitan Council
Transportation Division
TECHNICAL COMMITTEE MEETING
Wednesday, September 5, 2018
Kent County Road Commission
1500 Scribner NW Grand Rapids, MI

DeVries, chair of the Technical Committee, called the meeting to order at 9:30 am. A moment of silence was held for Darrell Robinson. Those present introduced themselves to the Committee.

I. ROLL CALL AND INTRODUCTIONS

Voting Members Present
Rick DeVries (Chair) City of Grand Rapids
Tim Bradshaw City of Kentwood/Caledonia Twp.
Scott Conners City of Walker
Art Green MDOT/GRTSC
Tim Haagsma Gaines Charter Township
Wayne Harrall Kent County
Russ Hencken Proxy for Mike DeVries Grand Rapids Township
Dennis Kent City of Wyoming
Bill LaRosie City of Wyoming
Brett Laughlin City of Wyoming
Robert Maffeo Ottawa County Road Commission
Terry Martin MDOT
Jeff Oonk Proxy for Bill Dooley
Steve Redmond Carrier & Gable
Liz Schelling City of Wyoming
Brad Sherlow City of Wyoming
Dan Stikwerda City of Hudsonville
Rick Sprague Kent County Road Commission
Julius Suchy Village of Sparta
Steve Warren Kent County Road Commission
Rod Weersing Georgetown Township
Chris Zull City of Grand Rapids

Staff and Non-Voting Guests Present
Michael Brameijer GVMC Staff
Andrea Dewey FHWA
Andrea Faber GVMC Staff
Abed Itani GVMC Staff
Laurel Joseph GVMC Staff
Tyler Kent MDOT
Norm Sevensma RWBC/WMEAC
Kelly Sheeran Algoma Township
II. **APPROVAL OF MINUTES**

DeVries entertained a motion to approve the May 2, 2018 Technical Committee minutes.

**MOTION by Harrall, SUPPORT by Suchy, to approve the May 2, 2018 Technical Committee meeting minutes. MOTION CARRIED UNANIMOUSLY.**

III. **OPPORTUNITY FOR PUBLIC COMMENT**

No Comment.

IV. **FY2017-2020 TIP AMENDMENTS/MODIFICATIONS**

Referring to **Item IV: Attachment A**, Joseph explained that MDOT is requesting committee review of the trunkline action pending JobNet report to determine the appropriate amend/modify action for these items. MDOT is also requesting to amend an existing project and add it to the TIP illustrative
list. GVMC is currently looking at the JobNet reports to see what is pending and what needs to be done with those pending projects. Ottawa County is requesting to add a FY2019 project to the TIP that was approved through the Local Bridge Program. KCRC is requesting to move MDOT funded TAP project from FY2018 to FY2019 and requesting to add a new MDOT funded TAP project to the FY2019. Kentwood is requesting to add a SPRTS project to the TIP for FY2019 and the staff is requesting the review of the local/transit action pending JobNet report to determine the appropriate actions that need to be taken. L. Joseph asked the committee to review the items and advise if there are any action items.

Itani began to explain that MDOT migrated all the TIP projects from FY2017 to FY2020 from E-File to JobNet. The moving process did not go smooth resulting in a need for a reconciliation of what MPO was approved and amended from E-File to JobNet. Once everything is reconciled we will move forward with JobNet. The table was provided to the committee for each to review and make sure it is correct. Itani – also stated that D. Robinson was the primary contact on JobNet and the rest of the team is now learning. Should be good in a couple weeks.

Kent discussed that the sheets used to come in three different categories for MDOT, local and transit projects and listed all the changes that were occurring in the JobNet system. Which is good and bad because it shows all the changes, most are minor. Kent also stated that the projects in the TIP will increased in price in the next month or so. Will rise to the level of an amendment it’s just not programed yet. Discussed the I-196 Fuller east to I-96 junction bridge project, cost are going up. Kent in addition to that MDOT is asking to add an illustrative project to add the third east bound lane to connect Fuller Avenue with new EB M-44 off-ramp, possibly $5 million dollars. This project was already in the plan. Itani asked about the East bound lane being taken out for lack of funding. Kent discussed the separation of the east bound merging lane. Green followed up and explained the project.

Laughlin explained the Ottawa County Barry Street Bridge project. Local Bridge Program project, would like to start this winter. It was selected from the 2015 call and was scheduled for 2018. This request was not forwarded and did not get into the TIP. Requesting to have it added to the TIP and begin February or March of FY2019
Harrall discussed the Kent County Road Commission’s State funded TAP projects. The Caledonia Trail Phase 1B will be moving from FY2018 to FY2019 and the Pioneer Trail Phase 5, a funded FY2019 project was not in the TIP and needs to be added.

Joseph explained that the City of Kentwood was approved for a Safe Routes to School project which is a State run program and is there is not regional funding issues and need to be added to the TIP. Joseph added that the City of Grand Rapids was approved for Federal Aid and request to move a project from the Illustrative to the main body of the TIP in addition to other requests. Devries thanked the GVMC team, State and Federal Government on this change.

Dewely added the importance for the local agencies and MDOT review the new E-File version in JobNet to make sure the project information is accurate. Making sure no projects are held up by inaccuracies from the data migration.

Itani advised that the team will be double checking E-File and JobNet.

**MOTION by Conners – under authority for staff to make administrative changes based on their reconciliation and discussion with MDOT and local agencies, SUPPORT by Strikwerda, to approve the FY2017-FY2020 TIP AMENDMENTS/MODIFICATIONS, MOTION CARRIED UNANIMOUSLY.**

V. **APPROVAL OF REVISED POLICIES AND PRACTICES DOCUMENT**

Referring to **Item V: Attachment A**, Itani explained that this is the document used to put the TIP into plan. After the certification meeting there was feedback that updates were needed, the main reason for updating the document is because of Performance Based Planning requirements. Safety, congestion, transit and bridge rolled into performance based languages and targets that we will utilize the future development of the TIP and the plan itself. In order for the TIP to be amended after November, the MPO has to adopt performance based planning. In some instances using the hybrid system proposed by the state otherwise the local system will continue to use Paser.

**MOTION by Laughlin, SUPPORT by Harrall, to approve the revised Policies and Practices document to the Policy Committee. MOTION CARRIED UNANIMOUSLY.**

VI. **PUBLIC PARTICIPATION PLAN**

Referring to **Item VI: Attachment A**, Faber discussed that GVMC is required to have a Public Participation Plan (PPP) that insures our public participation process is continuous and transparent. The PPP is updated at the beginning of the Metropolitan Transportation Plan development cycle.
Several changes were made in order to better reflect the current public participation practices of the MPO, advancements in technology, and recommendations from our recent certification review. The new information is highlighted in yellow. Requesting approval to submit to the Policy committee. Itani followed up with more in depth explanation of PPP. Faber added that if changes are needed to have them submitted by September 19, 2018.

**MOTION by Bradshaw, SUPPORT by Weersing, to approve the Public Participation Plan document to the Policy Committee. MOTION CARRIED UNANIMOUSLY.**

### VII. PRESENTATION BY MDOT ON PERFORMANCE MEASURES

Please refer to **Item VII: Attachments A and B**, Brad Sharlow from MDOT presented slideshow on the System Performance/Freight Performance Measure Final Rule and State Targets with a discussion on travel time reliability and congestion. Warren and Itani had questions on speed consistency, seasonal adjustments (driving slower in winter conditions) and data gathering time frames. Discussion ensued.

Itani mentioned the reason for the rush request is because it has to be in place by November or it will impact the TIP and the Plan. Sharlow reminded the committee that by supporting the States targets puts the burden on MDOT, including reporting and monitoring. If it is decided to support your own targets then it is up to the individual to follow up on their own targets.

**MOTION by Harrell, SUPPORT by Zull, to except the System Performance/Freight Performance Measures Final Rule and State Targets. MOTION CARRIED UNANIMOUSLY.**

### VIII. PRESENTATION BY GVMC ON PERFORMANCE MEASURES

Mike Brameijer presented on pavement transportation Performance Measure state targets. The targets are for four years but can be adjusted after two. Brameijer notified the committee that by supporting the States targets puts the burden on MDOT, including reporting and monitoring. If it is decided to support your own targets then it is up to the individual to follow up on their own targets.

#### Non-Interstate NHS - IRI Targets Based on 2017 Baseline Data

IX. PAVEMENT/BRIDGE AND SYSTEM PERFORMANCE/FREIGHT PERFORMANCE MEASURE TARGETS

Please refer to Item IX: Attachment A, Joseph advised that there is no presentation on the bridge target just the newsletter in the agenda packet. GVMC recommends supporting bridge targets.

MOTION by Lauglin, SUPPORT by Conners to approve Pavement/Bridge and System Performance/Freight Performance Measure Targets and support of state targets. MOTION CARRIED UNANIMOUSLY

X. OTHER BUSINESS
Joseph GVMC is trying to finalize the future year data for travel model, if you have been contacted to schedule a meeting and have not responded to please do so. We are trying to get the data by the end of this month.

Joseph advised that transportation training, hosted by MDOT, will be held September 18th and will forward on the meeting invitation.

Itani we are starting the development process of the Plan and the TIP the goal is to have the TIP ready by October FY2019 and the Plan by April FY2020.

**ADJOURNMENT**

Devries entertained a motion to adjourn the September 5, 2018 Technical Committee meeting.

**MOTION by Warren, SUPPORT by Haagsma, to adjourn the September 5, 2018 Technical Committee meeting at 10:52 am. MOTION CARRIED UNANIMOUSLY.**
