Job Description:

**Position Summary:**

The Field Technician / Flow Monitoring Assistant will perform Field Work in a satisfactory or above average manner.

**Principal Duties & Responsibilities:**

Field Work includes, but is not limited to:

- Installing monitors within sewer lines.
- Collecting data and reviewing accuracy.
- Monitoring troubleshooting and making repairs.
- Performing manhole inspection.
- Conducting flow isolations, smoke testing, dye water flooding, and site inspection.
- Hydraulic calibration.
- Maintaining accurate, legible, and organized records.
- Maintaining vehicle & equipment to ensure safety, mechanical soundness, & productive operation.
- Adhering to OSHA and CSL safety policies and procedures.
- Being punctual and having regular attendance.
- Other responsibilities as assigned by the Operations Manager from time to time.

**Education, Experience, and Knowledge:** *(Minimum education, experience, technical and communication skill levels and licenses/certificates normally required to perform the duties of this position)*

- High school Diploma or equivalent.
- Valid driver’s license is required.
Job Announcement

Working Conditions: (Typical working conditions associated with this type of work and environmental hazards, if any, that may be encountered in performing the duties of this position.)

- Good mechanical skills.
- Basic computer skills.
- Ability and willingness to work outdoors during all seasons.
- Physical and cognitive ability necessary to do confined space entry and perform rescue operations, when necessary.
- Ability to function in a team environment.
- Must be willing to work in the physical conditions present in a sewer.

Physical Demands: (The physical effort generally associated with this position.)

- Requires the ability to work outdoors for long periods of time, to tolerate various weather conditions, and to walk or stand for long periods of time.
- Able to lift a manhole lid, up to 75 lbs.
- Perform confined space entry in entering underground sewers by climbing ladders and being lowered via a wench.
- Cognizant ability to perform as the safety monitor for a person in a confined space and perform rescue, as necessary.
- Must have the ability to focus and continuously monitor the conditions in the confined space and determine if the space becomes dangerous and the entrant needs to be recovered/rescued.

Benefits: We offer competitive salaries and an excellent employee benefits package, including comprehensive health benefits, insurance, and participation in a 401(k) retirement plan.

PEER Consultants, P.C. is an equal opportunity employer, committed to diversity in the workforce. We encourage all qualified applicants to apply.
