HOW TO MAKE A RESEARCH POSTER: A GUIDE FOR STUDENTS

Many technologies and breakthroughs would not be possible without research. It is important to keep members of the community informed about the latest updates. One way to do that is through research posters.

01 INTRODUCTION

Provide a brief overview of the research topic and its importance. Include the research question and the objectives of the study.

02 OBJECTIVE

State the specific goals of the research. What do you hope to achieve through this study?

03 RESULTS/FINDINGS

Present the data and findings of your research. Use charts and graphs to illustrate your results.

04 RECOMMENDATIONS

Based on your findings, provide suggestions for future research or practical applications.

05 ANALYSIS

Discuss the implications of your findings and how they relate to the broader field of study.

5 Easy Ways to Help PROTECT OUR OCEANS

- 1. Stop Using Toxic Chemicals**
We can all play our part, by choosing to use non-toxic cleaning and household products.
- 2. Watch Your Water**
Be mindful of how you use water. Conserving water means less water runoff into the ocean.
- 3. Be Smart About Shopping**
Use a reusable bag when you go shopping, and buy environmentally friendly, low-plastic products.
- 4. Fish Responsibly**
Follow catch and release programs, boat safely and choose to buy sustainable seafood.
- 5. Choose to Volunteer & Help**
Volunteer at clean-ups of your local beach, and join in an ocean conservation activities.
