The award winning 905 is back and better than ever for 2017, with a dropper post, SRAM GX 1 by 11 and WTB wide rims with high air volume TCS tyres. All these features give the rider even more "Trail Control".

The 905 has an all new frame for 2017 with "Intergrip" seat post clamp system, new BBX internal cable routing and 12mm bolt through Boost rear axle, giving extra stiffness and increased chain clearance.

WTB STp i29 29mm wide TCS rims combined with 2.4" high volume TCS Tubeless tyres give the 2017 905 more grip so the rider can push the bike even harder. To give extra front end grip we have specced a High-Grip compound tyre.
