We've broken the mould with our kids bikes. By putting 26" wheels on a kids MTB we've given a boost in performance similar to an adult switching to a 650b/27.5" Trail Hardtail. More confidence, more control and easier riding.

The 403 uses a REVO Shift so small hands can easily exploit the huge range of gears 11-40T.

The 403 also comes with Whyte's own Get-a-Grip seat post clamping system. This easy to use clamp allows the post to be raised or lowered on the trail, even with small cold hands.
