The Carnaby is all about simplicity, with the addition of female-focused components such as Whyte's women's specific saddle. Nine gears operated by one shifter will give years of urban use while disc brakes guarantee consistent stopping performance, whatever the weather.

Based on our high performance mountain bike geometry, all our Fast Urban bikes have a long wheelbase and relaxed head angle for high speed stability, and a shorter stem for excellent slow speed manoeuvrability.

A custom rear dropout allows us to mount the rear hydraulic disc brake caliper inside the rear triangle for easy fitment of a rack or mudguards.
