With hydraulic disc brakes and a comfort enhancing suspension fork, the Ridgeway is ready for adventure whenever you are. Its lightweight, comfortable chassis and full Shimano drivetrain will give years of unrivalled performance.

Our custom built frames are loaded with unique design touches and British weatherproof features - such as the forward facing seat slot that stops water spray from the rear wheel getting into the frame and the continuous outer cables that are internally routed to keep the gear shifts working smoother for longer.

The ride-feel of these bikes is second to none, with a fantastic quality lightweight frame including our unique rear seat stays which really improve the comfort and performance, whatever the terrain. Puncture resistant tyres offer extra reliability and piece of mind.
