The future of sharing (in cities)
What roles should cities take to promote a sustainable sharing economy in the future?

Oscar Pelin, City of Malmö
Different roles that cities take in relation to the Sharing economy

Relating the roles to the city planning/development

Provider examples:
- **Items**: Innovating existing (stable) sharing solutions f.ex. libraries, public transport, fritidsbanken etc.
- **Space**: Temporary use of empty housing stock during development processes and of facilities empty during hours of the day.

Relating the roles to the city planning/development

Enabler examples:
**Early stages (planning):** Flexible planning and opening up the process (e.g., innovation competition)
**Late stages (development):** Developer’s dialogue, organizing, making future sharing part of the vision
