What have we learned & conclusion

Urbanism Next 2019
1:30 – 4:30 PM, May 7, 2019
Gerry Tierney
Perkins+Will
This is a Matternet delivery drone: 5kg of medical supplies – urgent – on demand. Now!
But will it always be this benign?
What if everyone felt their item was important and wanted it now?
Would we end up with this?
And what about delivery ‘bots on our sidewalks?
And what about delivery ‘bots on our sidewalks, curb space?
And what about delivery ‘bots on our sidewalks, curb space & building lobbies?
And what could retail look like?
And what could retail look like? And what becomes of the suburban mall?
And what could retail look like? And what becomes of the suburban mall? Town Center?
After we hear from our panelists we will have a workshop to look at ...
In the workshop we’ll look at:

- What will we likely buy on-line?
- What will the delivery modalities be?
In the workshop we’ll look at:

- Delivery locations
- Front door
- Building lobbies
In the workshop we’ll look at:

- Curb Access
- Delivery locations
- Sidewalk use
- Front door
- Building lobbies
In the workshop we’ll look at:

Repurposing of shopping malls
And now our panelists .....
