Funding

$450mm

*Launching soon*
Partnership Models

**Transportation as a Service (TaaS)**

Turnkey solution that includes technology plus drivers, vehicles, and operations management

**Software as a Service (SaaS)**

Tools and support for agencies who prefer to use their own drivers, vehicles and operators
## Microtransit Use Cases

<table>
<thead>
<tr>
<th>Use Case</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>First mile &amp; Last mile</td>
<td>Complement existing fixed transit routes and increase access to transit hubs</td>
</tr>
<tr>
<td>Replace fixed transit routes</td>
<td>Replace underperforming transit routes and improve service in low density areas and off-peak hours</td>
</tr>
<tr>
<td>Paratransit</td>
<td>Lower paratransit service costs and improve ease of booking and rider experience</td>
</tr>
<tr>
<td>Corporate</td>
<td>Provide transport for commutes, on-campus mobility, and reduce parking demand</td>
</tr>
</tbody>
</table>
**Example Partnerships**

**Arlington, TX**
End-to-end on-demand service in the US's largest city without a fixed route transit network

**Seattle, WA**
First and last mile service to 5 light rail stations in the South Seattle/Tukwila region.

**Austin, TX**
Updated an underperforming dial-a-ride and paratransit service with on-demand shuttles

**Los Angeles, CA**
Affordable, equitable first- and last-mile connections for traditionally underserved populations
Reports and Shared Data

Service Operation Report: Seeing completed rides, cancelation, no accepted and not served demand over the last 12 weeks.

Rider Growth Report: Looking at new accounts created over the last 12 weeks and where users stand on the conversion funnel.

Via will produce all data required for FTA reporting.
Thank you.
