Central Intelligence Agency
The Central Intelligence Agency's primary mission is to collect, evaluate, and disseminate foreign intelligence to assist the President and senior US Government policymakers in making decisions related to national security. CIA carefully selects well-qualified people in nearly all fields. Applicants must apply online at www.cia.gov to be considered for a position and must successfully complete medical and security processes. All positions are located in the Northern Virginia area.

CHA Consulting, Inc.
CHA is a full service engineering firm providing a broad range of planning and design services in the fields of industrial, power supply and distribution, communications infrastructure, structural, electrical, mechanical, environmental, geotechnical, civil, aviation, rail, and traffic/transportation engineering, as well as landscape architecture, land use planning, surveying, wetland delineation, construction engineering and technology services. The firm has become an industry leader, opening new offices in states across the east coast. Today, CHA employs over 1,000 people with 30 offices throughout the United States and Canada.

Chevron Corporation
Chevron is one of the world's leading integrated energy companies, with subsidiaries that conduct business worldwide. The company's success is driven by the ingenuity and commitment of its employees and their application of the most innovative technologies in the world. Chevron is involved in virtually every facet of the energy industry. The company explores for, produces and transports crude oil and natural gas; refines, markets and distributes transportation fuels and other energy products; manufactures and sells petrochemical products; generates power and produces geothermal energy; provides energy efficiency solutions; and develops the energy resources of the future, including biofuels. Chevron is based in San Ramon, Calif.
Chevron Phillips and Chemical Company:

Chevron Phillips Chemical is one of the world's top producers of chemicals that are essential to manufacturing over 70,000 consumer and industrial products, including items you rely on everyday such as food packaging, soap, electronics, automobiles and medical devices. We strive to be a great place to work and give our employees the flexibility and benefits to thrive both personally and professionally, including flexible work schedules, first-rate health coverage and a tuition reimbursement program. We are looking for motivated, determined and innovative people to join our team. While we have large-scale operations around the globe, every individual has the power to make an impact on our company.

Citgo Petroleum Company

CITGO Petroleum Corporation is an American success story that originated back in 1910 when pioneer oilman Henry L. Dougherty created the Cities Services Company. In 1965, Cities Services decided to change its marketing brand and introduced the name CITGO. They retained the first syllable of its long-standing name and ended with GO to imply power, energy and progressiveness. The now famous and enduring CITGO logo was born. Now more than four decades later, CITGO is in the top rank of petroleum marketers in the United States, and one of the nation's top marketers of gasoline. We are a world-renowned supplier of diesel fuel, jet fuel, kerosene, lubricants, greases, waxes, petrochemicals and industrial products.

Commonwealth Associates Inc.

Commonwealth Associates, Inc. is a leading consulting engineering company, employee-owned and specializing in design services for electrical utilities and industrial customers and offers competitive salaries and benefits.

Conagra Brands

Conagra Brands, headquartered in Chicago, combines a rich heritage of making great food with a sharpened focus and entrepreneurial spirit. We're transforming the way we operate to fulfill what consumers and customers want, in a smart, simple way. We're modernizing our iconic food brands, leveraging fresh opportunities and adapting to a changing landscape - all with a culture that's ready to capture growth and drive shareholder value.

Configure One

Founded in 2000, Configure One is a privately held configure, price, quote ("CPQ") software company headquartered in Oak Brook, IL, near Chicago. Our European operation, Configure One Europe, Ltd., is located in Essex County, near London. Configure One is known around the world as a leader in CPQ software. We've built our company on the principals of creating web-based software that is simple to use, yet powerful enough to offer flexibility in today's complex sales and manufacturing environments. Our goal is to provide our customers with a competitive advantage in their markets by improving bottom line results. We enable our customers to increase sales while reducing costs by automating the sales, order entry, and engineering processes.

Connelly Electric

Connelly Electric is a family owned electrical contractor located near the Chicago metropolitan area. We provide design/build, installation, and service and maintenance for electrical and lighting systems in every major market, including Residential Mixed Use, Retail and Hospitality, Health Care, Commercial, Education, and Industrial. In addition, Connelly Electric works alongside industry leaders to provide the following systems: security, audio/visual, sound, CATV, CCTV, paging, nurse call, and card access capabilities. With over 40 years of experience, our diverse customer base includes general contractors, developers, construction managers, educational, and institutional administrators, government, and business owners.
Consumers Energy
Join a diverse and dynamic team that makes and delivers the most valuable services in the world: electricity and natural gas. At Consumers Energy, our customers are at the heart of everything we do. Our employees work around the clock to provide service to our customers in honor of our history and to fulfill our promise to Michigan - Count on Us! Consumers Energy, the principal subsidiary of CMS Energy and headquartered in Jackson, Michigan, provides natural gas and electricity to nearly 6.8 million of the Michigan's 10 million residents in all 68 Lower Peninsula counties.

Continental Automotive
With sales of €34.5 billion in 2014, Continental is among the leading automotive suppliers worldwide and currently has approximately 200,000 employees in 53 countries. The Automotive Group with its three divisions Chassis & Safety (sales of approx. €7.3 billion in 2013, roughly 36,500 employees), Powertrain (sales of approx. €6.3 billion in 2013, roughly 32,400 employees) and Interior (sales of approx. €6.6 billion in 2013, roughly 34,400 employees) achieved sales of approximately €20 billion in 2013. The Automotive Group is present in more than 170 locations worldwide.

Convergint Technologies, LLC
Convergint Technologies is a North American systems integrator with a dedicated focus in Electronic Security, Fire Alarm & Life Safety, and Building Automation Systems. We provide a wide range of product solutions in each business area, and are committed to being the industry's best service provider. Whether it is our upfront assessment process, system design, installation, or long-term support, Convergint Technologies goal is to provide the best service in the industry. Convergint Technologies specializes in providing customers with the very best building system technologies available today. As an independent solutions integrator, Convergint has established relationships with multiple leading technology partners and other industry leaders.

Cook Biotech
Cook Biotech is dedicated to providing advanced tissue-repair products for improving patient outcomes globally. Products are manufactured using proprietary extracellular matrix (ECM) technologies and manufacturing processes. They are derived from porcine small intestinal submucosa (SIS) and other ECM-based biomaterials. Through collaboration with partners and distributors, Cook Biotech products are available under several brand names, including: AxoGuard®, Biodesign®, DynaMatrix®, FISH™, HaloShield™, keraSys™, OASIS®, and tarSys™. Partners and distributors include Aziyo Biologics, AxoGen Inc., Cook Medical Inc., Katena Products Inc., Keystone Dental Inc., Smith & Nephew Inc., and Morris Innovative.
COOK Medical

Common themes are shared across every medical specialty we support: patients want to get better and doctors want simpler, more effective options. That's why we strive to be more customer-centric, listening to doctors/hospitals and working hard to continually improve our minimally invasive medical devices, our manufacturing operations and our distribution systems. Being a family-owned business allows us to do what's best for the patient. It gives us the time to solve problems for the most effective patient outcomes.

Our unrivaled consulting experience, deep vertical industry expertise and comprehensive solutions portfolio, enable clients to leverage one strategic partner that consults, implements and operates across Supply Chain, Transportation, Retail, IT and ERP. We assume end-to-end responsibility and are committed to optimized delivery of every project.

Epic

As a global leader in the development of software for healthcare organizations, Epic is driving change for an entire industry - one that affects the quality of life for everyone. Our team collaborates with some of the world’s most respected healthcare organizations to improve both individual patient care and the health of entire communities. The challenges we tackle on a day-to-day basis impact the lives of more than 275 million patients worldwide. We're searching for smart, passionate people who want to achieve great things. If you want to be part of something truly important, consider a career at Epic.

ESD

A global company, ESD is a leader in Improving Society Through the Built Environment. We create design solutions that produce economic, environmental and experiential benefits for our clients, many of whom are the biggest names in the worlds of business, technology - and beyond. We embrace technological change and are at the forefront of developing Intelligent Buildings. We emphasize innovation, adaptability, and sustainability when providing mechanical, electrical, plumbing, fire protection, life safety, and technology engineering.

ETC, Inc.

ETC is a global company known for award-winning visual environment technologies and industry-leading customer service! Founded in Madison, Wisconsin in 1975, ETC was a college project that grew into a major business. ETC's international headquarters is located in Middleton, Wisconsin. ETC employs over 1300 people around the globe. ETC products are found all over the world in small and large venues, such as theaters, restaurants, schools, performing arts centers, TV studios, sports stadiums, and cruise ships. We're known for our casual culture where we like to have fun and make money!
Ethicon

At Ethicon, we are bringing people together to create innovative solutions that are advancing surgery and having life-changing impacts in health care. Our co-op development program offers rotations throughout the entire new product development process including design, manufacturing, quality and sustainability engineering. The products developed on the Cincinnati campus are mechanical in nature and offer students the opportunity to apply what they have learned in class to a real-world product. Additional opportunities such as internal classes and community outreach are offered to enrich the student's skill-set and co-op experience.

At the end of the program, co-op students gain critical industry experience that sets them up for future careers.

Driven by 'The Power of Dreams' way of thinking, we have been inspired to move for with the highest intentions of making every dream a successful reality. We have learned to move forward based on the initial visionary principles that our founder, Soichiro Honda, created. Our success in the global marketplace is the result of our continued investment in America's future. We thank our customers for the support and trust they've shown us. We look forward to challenging ourselves to generate new products and services that bring value to our customers and society during the next 50 years.

Kohler Company

That pioneering spirit of ingenuity is what led John Michael Kohler to acquire a cast iron foundry in 1873, which today has grown into an organization of 37,000 associates with more than 50 manufacturing locations on six continents. He understood the two essentials of exceptional design: a commitment to craftsmanship and quality, and a willingness to be bold. With our global headquarters located in Kohler, Wisconsin, we are best known for plumbing products, but Kohler Company also manufactures cabinetry and tile, engines, and generators and is the owner of two five-star resort destinations. Kohler has a belief in encouraging and offering opportunities to its associates for professional and personal development.

Kohl's

At Kohl's, our mission is to inspire and empower families to lead fulfilled lives. And there's no more rewarding job than that. Because it's not just about selling things. It's about letting customers know that the things that make their lives better are within their reach. We build great brands, launch new technologies to make shopping easier, contribute our time and dollars to improve the world we live in and dream up ways to empower our customers and Associates to create a life they love. Our Associates make a difference in the lives of our customers. Let us make a difference in yours. Welcome to Kohl's.

Kokosing

We are a family-owned company, offering clients the accessibility of a local firm, with the stability and resources of the largest contractor in the Midwest. Leveraging the individual strengths of our companies, we collectively provide client with more resources, capability, experience and value than any other self-performing contractor. Project range includes heavy civil/industrial, marine, material supply, natural gas, pipelines, power, transportation, and water/wastewater facilities.

Meijer

It takes guts to start a business during the Great Depression. And it takes vision to keep it going. Our founder, Hendrik Meijer, opened Thrifty Acres in 1934. Almost thirty years later, his son, Fred, pioneered the world's first ever supercenter - setting the table for who we are today: a multi-billion-dollar household name in retail.

Of course, we're not done. Not by a long shot. We recently launched the nation's largest grocery home-delivery service - reinventing the business of grocery shopping, again. A lot has changed over the years, except for one thing: we're still family owned. And that sense of family runs deep in everything we do. It's the difference between selling a product and serving a community, and it's the reason we've

Miebach Consulting

Supply Chain Engineering designs network structures, processes and installations in the Supply Chain. Accordingly, Supply Chain Engineering must pay full attention to both strategy and technology. Developing solutions is engineering driven, considering the strategic framework. If we talk as Supply Chain Engineers about relocation strategies we know the service demands of markets, the effects on the material flow and IT in a distribution centre or production line. Strategy discussions are based on the knowledge of the potentials and functions of material flow techniques, transport costs and processes. Miebach is ready to calculate and simulate all this in detail. This enriches our planning, secures calculate.

Mobile Drill Intl

Mobile Drill Intl manufactures a full line of drill rigs and tooling servicing the Geotechnical, Environmental, Mineral Exploration, Water Well and Seismic industries. MDI is structured to not only be a supplier for our customers, but also a resource to assist with the growth of their business. MDI manufactures both mechanical and hydraulic driven drills along with an extensive inventory of tooling - with shipments going out globally each day.

Modineer

Modineer is a privately-held contract manufacturer based out of Michigan in the steel fabrication business with over 1k employees and over 1.2mm ft2 manufacturing space across the Midwest. Our capabilities include heavy gauge stamping, fiber optic lasers, machine/finish/assembly, welding (MIG, TIG, laser), turret, roll-forming, tube-bending plus140k ft2 of painting space (e-coat, powder coat, CARC). We also produce over 800k steel and aluminum tanks/year at our Hoosier Tank location in South Bend, IN. In addition to being a current defense contractor, we are tier one to Big Three Auto and also focus on the heavy truck, construction, and agriculture industries.

Molex, LLC

With a presence in more than 40 countries, Molex offers a full suite of solutions and services for many markets, including data communications, consumer electronics, industrial, automotive, commercial vehicle and medical.
Morrison Container Handling Solutions

Founded in 1971 by President Nick Wilson, Morrison Container Handling Solutions is well known in the packaging industry for developing customer focused, simple and innovative solutions for container handling needs. The company was started by Nick Wilson in 1971 to provide superior bottle handling parts and timing screws and has now grown to be recognized as the source for innovative container-handling solutions, even for the most difficult rigid or semi rigid containers. Since its inception, Morrison has provided solutions for companies within the United States and internationally. Morrison is well known industry-wide for attentive service to a wide variety of customers' container handling needs - always with Support Built In.

Mussett Nicholas & Associates

Mussett Nicholas offers clients across a broad range of industries expertise in every phase of design, construction and project management including mechanical, electrical, and architectural services. Our business focus is primarily facilities engineering assisting our clients in the development of mechanical design for plumbing and HVAC systems for construction projects and electrical design for power distribution systems, interior/exterior lighting systems, fire alarm, voice/data, sound, or security systems for construction projects.

National Air & Space Intelligence Center (NASIC)

NASIC is the DoD's center of excellence for foreign air and space threats. NASIC's key customers include the President of the United States, Congress and the Nation's most senior military leaders who form the US defense policy decisions using NASIC intelligence products for relevancy.

National Nuclear Security Administration

Established by Congress in 2000, NNSA is a semi-autonomous agency within the U.S. Department of Energy responsible for enhancing national security through the military application of nuclear science. NNSA maintains and enhances the safety, security, and effectiveness of the U.S. nuclear weapons stockpile without nuclear explosive testing; works to reduce the global danger from weapons of mass destruction; provides the U.S. Navy with safe and effective nuclear propulsion; and responds to nuclear and radiological emergencies in the United States and abroad.
National Security Agency

The National Security Agency/Central Security Service (NSA/CSS) is a key member of the Intelligence Community and, by its very nature, requires a high degree of confidentiality. The Agency collects, processes, and disseminates intelligence information from foreign electronic signals for national foreign intelligence and counterintelligence purposes and to support military operations. NSA/CSS is also tasked with preventing foreign adversaries from gaining access to classified national security information.

**Procter & Gamble**

P&G was founded over 180 years ago as a simple soap and candle company. Today, we're the world's largest consumer goods company and home to iconic, trusted brands that make life a little bit easier in small but meaningful ways. We've spanned three centuries thanks to three simple ideas: leadership, innovation and citizenship. The insight, innovation and passion of talented teams has helped us grow into a global company that is governed responsibly and ethically, that is open and transparent, and that supports good causes and protects the environment. This is a place where you can be proud to work and do something that matters.

UL LLC

UL is a 125-year-old organization that got its start after William H. Merrill came to Chicago to improve the fire safety of the Palace of Electricity Building at the 1893 World's Fair. Seeing the opportunity to apply science to make possible the safe adoption and widespread use of electricity, he founded UL. While UL started out as a single test laboratory in Chicago, we have become an international safety science company with more than 150 laboratories serving clients in 100 countries worldwide. Nearly 22 billion products display the UL mark and 20,000 new product types are evaluated by UL every year. We here at UL work hard to foster safe living and working conditions for people everywhere.
