

HIGH PERFORMANCE SUSPENSION PARTS

OFF-ROAD PARTS CATALOGUE

EDITION 19

store.ktechsuspension.com

CONTENTS

4 -7 -----	HPFS High Performance Fork Springs
8 -11 -----	HPSS High Performance Shock Springs
12 -15 -----	FSS Front Fork Oil Seals
16 -19 -----	DSS Front Fork Dust Seals
20 - 23 -----	GBS Front Fork Guide Bushes
24 - 27 -----	SBS Front Fork Slide Bushes
28 - 31 -----	SASK Shock Absorber Service Kits
32 -----	ORVS Off-Road Valve System
33 -----	ORDS Front Fork Piston Kit Road & Track
34 -----	ORSS Front Fork Piston Kit Race
35 - 38 -----	SPB Front Fork Flow Control Valve
39 -----	Vacuum Pump
40 - 45 -----	HPTP High Performance Tuning Parts
46 - 47 -----	HPS Valve Shims

For more than 17 years, K-tech Suspension has specialised in the design, manufacture and supply of high quality motorcycle suspension products.

Our growing inventory of high performance suspension products are designed and assembled in the UK in dedicated production departments, with testing facilities to guarantee quality and performance.

K-tech holds one of the largest ranges of stock and replacement service parts in Europe at a dedicated distribution centre in the UK and aims to offer customers a reliable delivery service.

Our ISO9001 accreditation demonstrates the company's dedication and passion for providing customers with first class sales and technical services, maintaining exceptional quality, customer service and traceability of products for our international network of distributors and dealers.

All information included in this catalogue was correct at the time of printing. To see the latest product information visit store.ktechsuspension.com.

K-tech fork springs are manufactured from the highest grade chrome silicone wire, each spring is cold-coiled, heat-treated, pre-set and ground to length before being polished for ultimate performance.

All springs have their rate laser etched on the end and are manufactured to DIN 2095 grade 1.

- Cold-coiled
- Heat-treated
- Tempered
- Shot-peened
- Ground ends
- Polished for reduced friction and smoother performance
- Part number etched.

K-tech shock springs are manufactured from the highest grade chrome silicone wire. Each spring is cold-coiled, heat-treated, pre-set and ground to length. Phosphate coating is then applied to protect against corrosion and then powder-coated before the part number is applied. All springs are manufactured to DIN 2095 grade 1.

- Cold-coiled
- Heat-treated
- Tempered
- Shot-peened
- Ground ends
- Zinc phosphate coated
- Epoxy powder coated
- Part number printed

K-tech front fork oil seals are manufactured by NOK and are a direct replacement for the original equipment parts. NOK are chosen as original equipment by all Japanese suspension manufacturers for their quality and durability. All oils seals are supplied in pairs and are available for many fitments.

K-tech front fork dust seals are manufactured by NOK and are a direct replacement for the original equipment parts. NOK are chosen as original equipment by all Japanese suspension manufacturers for their quality and durability. All dust seals are supplied in pairs and are available for many fitments.

K-tech front fork guide bushes are a direct replacement, manufactured to the exact standards of the original equipment parts. They are manufactured from hardened steel and coated with copper for added protection. The contact surfaces are a PTFE material designed to give low friction on the moving parts. All guide bushes are supplied in pairs and are available for many fitments.

K-tech front fork slide bushes are a direct replacement and manufactured to the exact standards of the original equipment parts. They are manufactured from hardened steel and coated with copper for added protection. The contact surfaces are a PTFE material designed to give low friction on the moving parts. All slide bushes are supplied in pairs and are available for most fitments.

K-tech shock absorber service kits are supplied with an oil seal, dust seal, piston rod bush and most O-rings needed to service a shock absorber. All of the service parts are either equal or exceed the quality of the original parts. Most service kits are supplied with a new piston rod lock nut for added security when rebuilding the shock absorber.

Specially designed for Enduro riding, the ORVS includes complete compression and rebound assemblies with new pistons, finer adjustment control needles and a new hydraulic bottoming cup, which seals the cartridge tube to improve damping response time and bottoming control.

The extended adjustment range gives better options for all terrains including sand, hard pack and rocks, increasing grip, cornering and jumping maximising overall ride quality and stability for a safer and more positive control of your motorcycle.

The K-Tech Off-Road Damping System has been designed for lightweight Off-Road motorcycles. Designed and manufactured in the UK using the highest quality materials and processes, the system provides the rider with control and confidence in demanding off road conditions. The cartridge features a hydraulic bottoming control system which protects the rider from severe impacts when landing from large jumps. The ORDS cartridges are adjustable for compression and rebound damping.

- 32 Clicks independent compression adjustment
- 32 Clicks independent rebound adjustment
- Hydraulic bottoming control system
- Direct replacement (No machining required)
- Hard chrome piston rod
- Aircraft grade aluminium
- Hard anodised and super finished components
- Wide range of spring rates available.

The K-tech Off Road Spring System (Air2Spring system) has been designed to replace the original air system fitted in the latest Off Road Motorcycles. This simple design allows you to remove the original air spring system and replace it with a more conventional spring system. This direct replacement spring system requires no machining to install and also features external spring preload adjustment.

- Spring prelaod adjustment
- Diret replacement (No machining required)
- Hard Chrome Piston Rod
- Aircraft grade aluminium
- Wide range of spring rates available

*These cartridges are not supplied with springs and must be ordered seperately.

K-tech shock absorber piston bushes replace the original equipment Teflon fitment. They are manufactured from a hardened steel and copper coated, the wearing surfaces are a PTFE material designed to give low friction. All piston bushes are supplied with O-Rings needed and available for many fitments.

VACUUM PUMP

K-Tech vacuum pump suitable for the revision of all mono shock absorbers, steering dampers and pressurised forks.

There are two separate tanks for different grades of oils, allowing you to service different components.

Easy to use thanks to the simple controls on the front of the machine, the pump also offers the possibility of connecting to an external tank in order to create the vacuum inside it and thus be able to overhaul the steering dampers.

The pump easy to transport thanks to two practical handles placed on the sides of the machine.

The K-Tech vacuum pump is available in 110V & 240 voltages.

HPTP

HIGH PERFORMANCE TUNING PARTS

K-tech front fork and shock absorber tuning parts are designed to help suspension technicians to improve the performance of original equipment products. All parts are designed to the exact standards as all other K-tech products, using over 25 years of competition expertise to provide high performance parts.
