

## RFP 2021-0200-4627 Written Determination

### Written Determinations for shortened solicitation

The State must act quickly to protect as many workers as possible by improving telework capabilities of public employees to enable compliance with COVID-19 public health precautions. Requests for funding were submitted around June 5<sup>th</sup>, and approval was received almost 7 weeks later. US Treasury guidance requires the purchase of goods or services by 12.31.20. Due to the urgency of the need to protect workers combined with the abridged amount of time to complete these services, the State to made the determination that the solicitation must be shortened to 10 days to allow for the services to be completed on time.
