

KAPPA PSI

PHARMACEUTICAL

FRATERNITY

is

for your son

by

Rinaldo V. DeNuzzo, Ph.D.

NOW IS THE TIME

for your son to give thought to those higher ideals of a social being. His present college days of frequent contact and intimate association with his fellowman is necessary for his broad development. Membership in a professional fraternity can help to provide the proper environment for this growth.

BELONGING TO A PROFESSIONAL FRATERNITY

is important to your son. Unlike a social fraternity, a professional fraternity is a "specialized fraternity which limits its student membership to a specific field of professional education in accredited colleges and universities offering courses leading to recognized degrees therein; which, maintains mutually exclusive membership in that field, but may initiate members of general social fraternities; and which organizes its group life specifically to professional competency and achievement within its field."

KAPPA PSI PHARMACEUTICAL FRATERNITY

founded in 1879, is one of more than thirty professional fraternities in the United States and Canada which adheres to the general requirements for the professional type organization. It is a member of the Professional Interfraternity Conference, and permits chapters to be installed only in those schools or colleges of pharmacy that are accredited by the American Council on Pharmaceutical Education. Kappa Psi has a total of 58 collegiate chapters and 29 graduate chapters.

AS YOUR SON PLEDGES

to Kappa Psi, he will take an active, unselfish part in the general campus affairs of his college. He will find that Kappa Psi strives to:

1. *Conduct a fraternal organization for the mutual benefit of its members*
2. *Develop industry, sobriety, and fellowship, and to foster high ideals, scholarship, and pharmaceutical research*
3. *Support all projects which will advance the profession of pharmacy and to actively participate in them*
4. *Inspire in its members a deep and lasting pride in their fraternity and in the profession of pharmacy*
5. *Render such other services to its members and its profession as may seem feasible and as may be in accordance with the Constitution and By-Laws of the Fraternity*

Kappa Psi, in accordance with these pledged ideals, helps to develop each man's character. Group consciousness and group loyalty will become a part of his way of thinking. Kappa Psi also teaches a man to work, live, and think with other men. The disciplinary methods of this fraternity also help prepare the young man for his professional life. These high ideals, nurtured in this critical time of personality development, will persist with the student during his entire lifetime.

MEMBERSHIP IN KAPPA PSI

can afford the proper social and professional environment for your son, provided he can meet the minimum scholastic average required. Kappa Psi, in selecting its members, makes a careful investigation of its candidates. The right to pick and choose its members is reserved in order that those selected would enter into Brotherhood with a unity of spirit. Those whose influence might tend to introduce a spirit of disunity are vigorously sought to be excluded.

TO FURTHER INSURE

tighter bonds of Brotherhood by building the social and professional growth desired, Kappa Psi holds regular business meetings, programs, and social events. These are frequently held for the mutual benefit of both active and alumni members. Many chapters maintain chapter houses for their active members. Every effort is made to initiate qualified students early in his college career in order that he may actively participate in professional programs for the greatest period of time.

KAPPA PSI

was the first pharmaceutical fraternity to recognize the value of both social and professional contacts for young college men. To this end, Kappa Psi has continued to develop and grow so that until now it ranks as the largest pharmaceutical fraternity as well as the third largest pharmaceutical organization.
