Advisory Services Offered

HIGHLAND Financial Advisors, LLC offers four distinct services.

Wealth Management services are offered to individuals and families.

Investment Management services are offered to endowments, trusts, and corporations.

ERISA Fiduciary Investment Management services are offered to employer retirement plans.

Upswing Advisor services are offered to young professionals and families

WEALTH MANAGEMENT SERVICES

Wealth Management is a service for individuals and families that may include financial planning and investment management. Typically, we offer one or two discovery meetings with Client to develop Client's goals and vision for their financial plan. We offer to gather all known information about the Client's financial resources, including income sources, assets, liabilities, insurance policies, estate documents, employee benefits, and family details. Following that, we typically develop a financial plan with detailed costs for each of their lifestyle goals. The financial plan considers the Client's available assets and liabilities, income and expenses, expected rate of return, and priorities needed to achieve Client's goals. Based upon your stated goals and objectives and upon our analysis of the information supplied, we will make specific recommendations concerning products, services, and/or strategies that we believe will best assist you in attaining your goals and objectives. Typically, we determine the rate of return needed to achieve Client's goals, and we discuss the financial capacity for risk and Client's personal tolerance for risk. From that discussion, will typically develop an Investment Policy Statement to guide the management of Client's portfolio. Our investment philosophy is based on the generally accepted principle of Modern Portfolio Theory, which holds that asset allocation is the primary determinant of portfolio performance.

INVESTMENT MANAGEMENT SERVICES

Typically, HIGHLAND Financial Advisors, LLC quantifies the rate of return needed to achieve Client's goals and determines the risk capacity and risk tolerance for Client. From that an Investment Policy Statement is developed and then used to design a portfolio. Our investment philosophy is based on the generally accepted principle of Modern Portfolio Theory, which holds that asset allocation is the primary determinant of portfolio performance.

business interest, and any real estate investments. The compensation shall be based on the value of the Assets Under Advisement as of the execution of the agreement and then annually adjusted based on the value of Assets Under Advisement as of the twelve-month anniversary. A pro-rata refund will be paid to client if cancelled within any quarter.

INVESTMENT MANAGEMENT SERVICES

If a client terminates our services the fees are prorated for the number of days in the quarter or month and the client is refunded any balance.

All clients with engagements starting prior to February 26, 2016 may have other fee schedules and agreements for services.

Other fees or expenses paid in connection with advisory services: products and custodians. All fees paid to HIGHLAND Financial Advisors, LLC for our services are separate and distinct from the fees and expenses charged by mutual funds and exchange traded funds (ETFs) to their shareholders. Mutual fund expenses are generally described in each fund's prospectus.

Clients may incur transaction fees or commissions in connection with trading of mutual funds, ETFs, individual stocks and bonds, which are charged by the custodian (brokerage firm holding the client’s assets for safekeeping). Transaction costs for mutual funds and stocks charged by our recommended

custodians, Charles Schwab & Co., Inc. (Schwab) and TD Ameritrade Institutional (TD Ameritrade), generally vary from \$0 to \$20 for each purchase and sale transaction.

Comparable services

HIGHLAND Financial Advisors, LLC believes that the charges and fees offered within its program are competitive with alternative programs available through other firms offering a similar range of services; however, lower fees for comparable services may be available from other sources.

Proper management of conflicts of interest relating to the fees we receive from Client, relating to the receipt of percentage-based compensation

A conflict of interest can exist in any form of compensation; however, we have adopted internal policies to properly manage these and other potential conflicts of interest. HIGHLAND Financial Advisors, LLC goal is that advice to client remains at all times in client's best interest. We bill for services based on assets under management or assets under advisement. This is a very common form of compensation for registered investment advisory firms and avoids the multiple inherent conflicts of interest associated with commission-based compensation.

6. PERFORMANCE-BASED FEES AND SIDE-BY-SIDE MANAGEMENT

Not applicable. HIGHLAND Financial Advisors, LLC does not offer performance-based fees or side-by-side management to our clients.

7. TYPES OF CLIENTS

HIGHLAND Financial Advisors, LLC generally offers investment advice to:

- Individuals and families
- Pension and profit sharing plans
- Trusts, estates, endowments or charitable organizations
- Corporations or business entities other than those listed above
- Small business owners

8. METHODS OF ANALYSIS, INVESTMENT STRATEGIES AND RISK OF LOSS

Before investing a client's portfolio, we will typically develop an Investment Policy Statement to establish a clear understanding between client and us as to how we will manage the client's investment portfolio. Clients should understand that buying securities involves risk and the Investment Policy Statement is created to provide a plan to manage client's assets for an expected rate of return with an acceptable amount of risk.

Generally

HIGHLAND Financial Advisors, LLC offers the investment strategy and its implementation for all clients, utilizing a variety of securities. Our security analysis method is fundamental. HIGHLAND Financial Advisors, LLC's Investment Committee establishes the overall investment strategies employed by the firm, reviews the brokerage/custodian firms we recommend to our clients, and approves of particular investments, which may be used by advisors of our firm.

Specific no-load mutual funds and other investment products and securities are then recommended to clients. Clients' portfolios are periodically monitored, and adjustments to investment portfolios are suggested when appropriate. A disciplined approach to rebalancing is employed in order to maintain asset class exposures within desired risk tolerances, subject to variances permitted for tax reduction, tax planning or other reasons. Clients should understand that there can be no guarantee about the attainment of any goals, investment objectives, or investment returns.

Methods of Analyses and Investment Strategies, In General

In designing investment plans for clients, we rely upon the information supplied by client and client's other professional advisors. Such information may pertain to client's financial situation, estate planning, tax planning, risk management planning, short-term and long-term lifetime financial goals and objectives, investment time horizon, and perceived current tolerance for risk.

This information becomes the basis for the strategic asset allocation plan, which we believe will best meet client's stated long-term personal financial goals. The strategic asset allocation provides for investments in those asset classes which HIGHLAND Financial Advisors, LLC believes (based on historical data and our proprietary analysis) will possess attractive combinations of return, risk, and correlation over the long term. A tremendous amount of academic research reveals that strategic asset allocation determines the majority of the expected long-term gross returns of investor's portfolios. Our selection of asset classes is driven by research into global asset classes by such academics as Professor Eugene Fama, Sr. of the University of Chicago Booth Graduate School of Business and the Center for Research in Security Prices, Professor Kenneth French of Dartmouth College, and many other academics and researchers.

Investment policy and overall portfolio weightings among equities, fixed income, alternatives, and cash equivalent investments are based upon each client's needs and desires, perceived risk tolerance and the need to assume various risks, and investment time horizon.

To the extent possible, we will utilize asset location to maximize after-tax returns by placing certain asset classes in taxable accounts and other asset classes in tax-deferred or tax-free accounts. For a client with multiple accounts, this will result in accounts with different holdings and each account performing differently. HIGHLAND Financial Advisors, LLC is primarily concerned with the performance and risk characteristics of the portfolio as a whole and not with each individual account.

Methods of Analysis; Sources of Information

HIGHLAND Financial Advisors, LLC security analysis is based upon a number of factors including those derived from commercially available software technology, securities rating services, general economic and market information, due diligence reviews, and specific investment analyses that clients may request. The main sources of information include commercially available investment information and evaluation services, financial newspapers and journals, academic whitepapers and periodicals. Prospectuses, statements of additional information, other issuer prepared information, and data aggregation services are also utilized. Investment Committee members and advisors also attend various investment and financial planning conferences. Research is also received from consultants, including financial economists affiliated with Dimensional Fund Advisors (DFA), Charles Schwab & Co., Inc., TD Ameritrade Institutional, and other firms.

Types of Investments

Each client typically receives an investment portfolio which consists mainly of no-load stock and bond mutual funds.

- Exchange-listed securities
- Securities traded over-the-counter
- Corporate debt securities
- Commercial paper
- Certificates of deposit
- Municipal securities
- Variable life insurance
- Variable annuities
- Mutual fund shares
- Exchange Traded Funds
- United States government securities
- Interests in partnerships investing in real estate

Risk of Loss, In General

Investing in securities involves a risk of loss that clients should be prepared to bear on occasion. The investment recommendations seek to limit risk through broad global diversification in equities (through broadly diversified stock mutual funds) and investment in high quality fixed income securities or diversified bond funds. However, the investment methodology will still, at times, subject the client to declines in the value of their portfolios, which can at times be dramatic.

Risk of Loss, Certain Higher-Risk Securities

Certain securities recommended, such as U.S. small cap and micro-cap mutual funds, commodities-linked mutual funds, and emerging markets mutual funds, possess higher levels of volatility (as individual asset classes within a portfolio). We may employ these securities as part of an overall strategic asset allocation for a client, and when such is undertaken, HIGHLAND Financial Advisors, LLC possesses a reasonable belief that the risk-return relationship for these securities will likely be beneficial for the investor over the long term.

Cash Balances in Client Accounts

Cash in clients' investment accounts are typically swept into the money market mutual fund accounts or money market bank accounts of TD Ameritrade, or Schwab. We may also buy bank CDs. We typically discuss with each client, during periodic reviews, upcoming cash flow needs and seek to plan accordingly to meet those needs. While it is not the practice to encourage clients to maintain a large amount of cash in their accounts, such may be undertaken depending on the planning needs of the client. For example, since the time horizon of their capital assets needs to be five years or longer, any capital they intend to consume over the next five years may be kept in a "reserve fund". This would be typical for a short-term goal or for someone in retirement needing income from their assets to support their lifestyle.

HIGHLAND Financial Advisors, LLC includes separate accounts or funds established for cash reserve purposes in the calculation of HIGHLAND Financial Advisors, LLC's assets under management and fee calculations.

9. DISCIPLINARY INFORMATION

There are no disciplinary actions to report for HIGHLAND Financial Advisors, LLC or any of its investment adviser representatives.

10. OTHER FINANCIAL INDUSTRY ACTIVITIES AND AFFILIATIONS

HIGHLAND Financial Advisors, LLC is actively engaged in a business other than giving investment advice and offers services other than investment advice to clients. HIGHLAND Financial Advisors, LLC also offers pension and profit sharing plan consulting and administration services to businesses and individuals. This is known as Third Party Administration of qualified retirement plans. Approximately 15% of the firm's time is spent in this area. HIGHLAND Financial Advisors, LLC charges separate fees for this service.

11. CODE OF ETHICS, PARTICIPATION OR INTEREST IN CLIENT TRANSACTIONS AND PERSONAL TRADING

Generally, We Seek to Avoid Material Conflicts of Interest

HIGHLAND Financial Advisors, LLC seeks to avoid material conflicts of interest. Typically, HIGHLAND Financial Advisors, LLC, its investment adviser representatives, or its team members do not receive any third-party direct monetary compensation (i.e., commissions, 12b-1 fees, or other fees) from brokerage firms (custodians) or mutual fund companies.

However, some additional services and non-direct monetary or other forms of compensation are offered and provided to HIGHLAND Financial Advisors, LLC as a result of its relationships with custodian(s) and/or providers of mutual fund products. For example, our investment advisors and employees may be invited to attend educational conferences and/or entertainment events sponsored by such brokerage firms or custodians or mutual fund companies. Custodians/brokers may offer soft dollars to support our business operations. We believe that the services and benefits provided to us by brokerage firms (custodians) and mutual fund providers do not materially affect the investment management recommendations made to our clients.

About Our Relationships with Investment Product Providers and Custodians

Following a stringent interview process, HIGHLAND Financial Advisors, LLC was granted access by Dimensional Fund Advisors (DFA) to its mutual funds in March of 2008, and by Stone Ridge Asset Management, LLC to its mutual funds in December of 2014. Dimensional Fund Advisors is a Santa Monica, California based mutual fund company with over 40 funds. Stone Ridge Asset Management, LLC is a New York based mutual fund company with over 11 funds.

While there is no direct linkage between the investment advice given and the approval of HIGHLAND Financial Advisors, LLC to access the mutual funds of Dimensional Fund Advisors or Stone Ridge Asset Management, LLC, economic benefits are received which would not be received if we did not give investment advice to clients. These benefits, which are also received by other Registered Investment Adviser firms granted access to the Dimensional Fund Advisors or Stone Ridge Asset Management, LLC funds, include attendance at seminars where academic instruction is given on asset allocation strategies, financial planning, and practice management. We are under no obligation to recommend the mutual funds of Dimensional Fund Advisors or Stone Ridge Asset Management, LLC

HIGHLAND Financial Advisors, LLC receives benefits from its custodial relationships with TD Ameritrade, and Schwab, which are also received by other Registered Investment Adviser firms who

custody clients' assets with these custodians. These benefits include attendance at seminars where financial planning, investment management and practice management instruction is given. HIGHLAND Financial Advisors, LLC pays all of the travel and hotel costs for members and staff attending these seminars.

Our Code of Ethics

We have adopted a Code of Ethics, to which all investment advisor representatives and employees are bound to adhere. The key components of our Code of Ethics reflect:

- The interests of clients will be placed ahead of the firm's or any employee's own investment interests.
- Employees are expected to conduct their personal securities transactions in accordance with the Personal Trading Policy and will strive to avoid any actual or perceived conflict of interest with the client. Employees with questions regarding the appearance of a conflict with a client should consult with the CCO before taking action that may result in an actual conflict.
- Employees will not take inappropriate advantage of their position with the firm.
- Employees are expected to act in the best interest of each of our clients.
- Employees are expected to comply with federal securities laws. Strict adherence to this policy manual will assist the employee in complying with this important requirement.

HIGHLAND Financial Advisors, LLC will provide a complete copy of the Code of Ethics to any client or prospective client upon request.

Participation or Interest in Client Transactions and Personal Trading

HIGHLAND Financial Advisors, LLC does not currently participate in securities in which it has a material financial interest. HIGHLAND Financial Advisors, LLC and its related persons, as a matter of policy, do not recommend to clients, or buy or sell for client's accounts, securities in which the firm or its related persons has a material financial interest.

HIGHLAND Financial Advisors, LLC's Code of Ethics provides that individuals associated with our firm may buy or sell securities for their personal accounts identical or different than those recommended to clients. However, it is the expressed policy of our firm that no person employed by the firm shall prefer his or her own interest to that of an advisory client nor make personal investment decisions based on investment decisions of advisory clients.

To supervise compliance with the Code of Ethics, HIGHLAND Financial Advisors, LLC requires that anyone associated with this advisory practice and who possesses access to advisory recommendations (before or at the time they are entered into) ("access persons") to provide annual securities holding reports and quarterly transaction reports to HIGHLAND Financial Advisors, LLC's Chief Compliance Officer or his or her designee. We also require access persons to receive advance approval from HIGHLAND Financial Advisors, LLC's Chief Compliance Officer or his designee prior to investing in any initial public offerings or private placements, and with regard to trading of certain individual securities.

The Code of Ethics further includes HIGHLAND Financial Advisors, LLC's policy prohibiting the use of material non-public information and protecting the confidentiality of client information. We require that all individuals must act in accordance with all applicable Federal and State regulations

governing registered investment advisory practices. Any individual not in observance of the above may be subject to discipline.

In instances where HIGHLAND Financial Advisors, LLC and/or its associates buy or sell the same securities as those of their clients, the client's accounts are given priority. Our representatives may not affect for himself or herself or his or her immediate family ("Covered Persons") any transactions in a security that is being actively purchased or sold, or is being considered for purchase or sale, on behalf of any client, unless in accordance with the following procedures:

1. If HIGHLAND Financial Advisors, LLC is purchasing or considering for purchase any security on behalf of a client, no Covered Persons may transact in that security prior to the client's purchase having been completed by HIGHLAND Financial Advisors, LLC, or until a decision has been made not to purchase the security on behalf of the client; and
2. If HIGHLAND Financial Advisors, LLC is selling or considering the sale of any security on behalf of a client, no Covered Persons may transact in that security prior to the sale on behalf of the client having been completed by HIGHLAND Financial Advisors, LLC, or until a decision has been made not to sell the security on behalf of the client.

General exceptions:

1. This policy has been established recognizing that some securities being considered for purchase and sale on behalf of our clients trade in sufficiently broad markets to permit transactions to be completed without any appreciable impact on the markets of the securities.
2. Open-end mutual funds and/or the investment subdivisions which may comprise a variable insurance product are purchased or redeemed at a fixed net asset value price per share specific to the date of purchase or redemption. As such, transactions in mutual funds and /or variable insurance products by Covered Persons are not likely to have an impact on the prices of the fund shares in which clients invest and are therefore not prohibited by the Advisory Firm's Investment Policy and Procedures.

In accordance with Section 204A of the Investment Advisors Act of 1940, HIGHLAND Financial Advisors, LLC also maintains and enforces written policies reasonably designed to prevent the misuse of material non-public information by HIGHLAND Financial Advisors, LLC or any person associated with HIGHLAND Financial Advisors, LLC.

12. BROKERAGE PRACTICES

Use of Brokerage Firms (Custodians), In General

HIGHLAND Financial Advisors, LLC does not maintain custody of your assets that we manage. Your assets must be maintained in an account at a "qualified custodian," generally a broker/dealer or bank. We recommend that our clients choose among TD Ameritrade Institutional, or Charles Schwab & Co., Inc., FINRA-registered broker-dealers and members of SIPC, as a qualified custodian. We are independently owned and operated and not affiliated with TD Ameritrade, or Schwab. The custodian/broker of your choice will hold your assets in a brokerage account and buy and sell securities when we instruct them to. While we recommend that you use TD Ameritrade, or Schwab as custodian/broker, you will decide whether to do so and open your account with the

custodian/broker by entering into an account agreement directly with them. We do not open the account for you.

Our Recommendations of Brokerage Firms

Client may direct HIGHLAND Financial Advisors, LLC to use a particular broker-dealer (subject to HIGHLAND Financial Advisors, LLC's right to decline and/or terminate the engagement). In such event, Client will negotiate terms and arrangements for the account with that broker-dealer, and HIGHLAND Financial Advisors, LLC will not seek better execution services or prices from other broker-dealers or be able to "batch" the client's transactions for execution through other broker-dealers with orders for other accounts managed by HIGHLAND Financial Advisors, LLC.

Further, if such brokers are utilized, HIGHLAND Financial Advisors, LLC may not possess access to certain mutual funds and other investments that are generally available only to institutional investors or which would require a significantly higher minimum initial investment, and commission rates paid or transaction fees paid may be higher than the fees negotiated by HIGHLAND Financial Advisors, LLC.

While as a fiduciary, HIGHLAND Financial Advisors, LLC endeavors to act in its clients' best interests, our desire that clients maintain much of their assets in accounts at TD Ameritrade, or Schwab may be based in part on the benefit to HIGHLAND Financial Advisors, LLC for the availability of some products and services (See Item 11, Page 11 About Our Relationships with Investment Product Providers and Custodians) at no cost to our firm, or at reduced costs, and not solely on the nature, cost, or quality of custody and brokerage services provided by the brokers, and this may create a potential conflict of interest.

However, we have negotiated fees with the custodians we recommend, and we have selected these custodians for their generally low fees relative to another large custodian. Also, we prefer to recommend custodians whom possess significant size and financial resources, for purposes of enhanced safety of clients' funds.

Aggregation of Client Trades

We may aggregate sale and purchase orders of securities held by clients with similar orders being made simultaneously for other clients if such aggregation is reasonably likely to result in overall economic benefit to clients.

Non-Participation in Client Referral Programs of Custodians

We do not participate in the client referral programs that may be sponsored by such custodians.

Participation in Client Referral Programs of Investment Product Providers

We do not participate in any client referral program from any custodian or investment product provider.

13. REVIEW OF ACCOUNTS

For those clients to whom we offer investment management services, the Principals of HIGHLAND Financial Advisors, LLC, and/or its Associate Persons, conduct account reviews on an ongoing basis.

All clients are advised to inform us of any changes to their goals and objectives or financial situation that could impact their financial planning or investment objectives.

The Portfolio Analyst reviews all accounts on at least a quarterly basis for consistency with investment objectives, including asset allocation, performance measures, other investment policy criteria, and accuracy of trades on an ongoing basis. The accounts administrator reviews accounts on a daily basis for accuracy of transactions, including, credits, debits, deposits and disbursements. Clients receive a confirmation of each transaction and periodic statements from their broker-dealer/custodian.

HIGHLAND Financial Advisors, LLC reviews Client's portfolio periodically by measuring the rate-of-return, asset allocation, risk assumptions, and market value. Periodically, following significant market moves, and if trading is expected to result in a benefit to Client, we will typically rebalance your portfolio back to your target asset allocation. We offer performance reports that track your portfolio's historical rate of return, allocation risk level and market value via a secure web-based portal, ClientView.

14. CLIENT REFERRALS AND OTHER COMPENSATION

HIGHLAND Financial Advisors, LLC is not paid cash by and does not receive any economic benefit including commissions, equipment or non-research services from a non-client in connection with giving advice to clients. HIGHLAND Financial Advisors, LLC has a solicitation agreement with Kinder & Co., Inc. for client referrals. In compliance with Rule 206(4)-3 of the Investment Advisers Act of 1940, prospective clients who are referred by Kinder & Co., Inc. are offered a separate disclosure document detailing the terms of the solicitation agreement between HIGHLAND Financial Advisors, LLC and Kinder & Co., Inc. HIGHLAND Financial Advisors, LLC compensates Kinder & Co., Inc. 0.15% of the Assets Under Management.

15. CUSTODY

HIGHLAND Financial Advisors, LLC does not have custody of clients' funds or securities. Clients' funds and securities are held by the custodian (TD Ameritrade, or Schwab). Clients will receive account statements and confirms directly from the custodian. Clients should carefully review the account statements they receive.
