Innovation along with meticulous design and quality manufacture have resulted in this superior bespoke solution.

OUR IDEA

When frameless glass showers are becoming second place and colour is playing a new role in bathrooms – Drench is born. Sharing different skills and driven by an spirit of innovation, we are now proud to introduce a bold new solution for your shower enclosure.

At Drench we have been working with some of the world's leading experts to manufacture enclosures that are at the forefront of design and engineering.

For years chrome and glass have been the two fundamental components of the shower door. This is about to change and we at Drench plan to revolutionise the industry. Rather than an accessory to the bathroom, our goal is to make the shower enclosure the focal point.

After almost half a decade of research and development, Drench now have a portfolio of 4 collections that complement these latest trends bringing a bold style statement to that once ignored space in your bathroom.

Drench has combined manufacturing techniques from a number of different industries and we are the first in the world to introduce them into shower door manufacturing.

Our production is so unique that we have a patent pending on our processes.

With our ever increasing manufacturing plant nestled in the countryside of Hampshire our expertise in engineering coupled with the latest in precision machinery guarantees the highest levels of quality.

All our components have been designed and manufactured in the United Kingdom, tested in accordance to BS EN 14428:2015. Manufacture in the UK not only allows us to offer a complete range of standard items but also gives us the capability to manufacture any design and bespoke configuration requested.

With Drench shower panels, designs, colours and textures are endless. The only limitations are your imagination.

PRODUCT FEATURES

MADE IN THE UK

Drench products are manufactured in the UK.

LIFETIME WARRANTY

Drench products are lifetime guaranteed.
For further details see Sales Terms & Conditions.

RAL CLASSIC COLOURS AVAILABLE

Standard items are available in Black RAL 9005 and ALL RAL Classic colours are available as bespoke (*).

EASY CLEAN

The metal framework is only on the external face of the shower and the glass is treated to make it easy clean.

TOWEL HOLDER OPTION

Some of our styles offer towel holder option.
For further details see Accessories pages.

ADJUSTABILITY

Drench products are adjustable. Every product is designed considering tolerances.

8MM GLASS

Products are available in 8mm toughened glass BS EN12150. See further detail opposite.

(*) Due to matching colour reasons we can guarantee 100% accuracy on RAL CLASSIC system. RAL Design or RAL Effect systems are available under request. RAL CLASSIC is the most commonly used colour system in the industry. You recognise this by the 4 digit numbers; for example our standard Matt Black, RAL 9005.

DRENCH Product Catalogue is available in both EQ Software and Virtual Worlds platforms.

Do not hesitate to contact us if any further information required.
