THE SOCIETY LIBRARY
Internship Program

GRANT RESEARCH AND ACQUISITION INTERNSHIP
THE PROJECT

The Society Library is a non-partisan, non-governmental 501(c)3 non-profit dedicated to the betterment of society through information access, preservation, and integrity.

By creating and deploying decentralized content analysis methods, we are gathering information and arguments from every corner of the web to be analyzed, sorted, mapped, and presented to the American public. Students accepted to this internship will be working on our Great American Debate program.

Students will have hands-on experience working on a transformative project which could potentially change mass communication strategies in the United States hereafter. In whatever capacity a student will be working, they will have the opportunity to make a marketable contribution.

We are starting with one of the most politically divisive and universally impactful topics facing the nation: CLIMATE CHANGE

Rapidly grow your Climate science expertise and knowledge, gaining vast amounts critical information from climatologists all around the world, while contributing to building one of the most comprehensive Climate Science data sets compiled.

By applying technologies and methods from philosophy, statistics, data science, argumentation theory, and even art to the debate about climate change, you will have an incredible opportunity to contribute meaningfully not only to this public debate, but also to your CV.

YOUR OBJECTIVES

Skilled fundraisers possess excellent communication, organization, and planning skills as well as people management skills, and creativity. Students with an eye towards a career on a C-suite track, a writing career, public affairs, or fundraising career would benefit from this internship.

Students will learn how to find value to extract, and how to exchange value within a network. Students will be taught to critically read and respond to writing prompts for the solicitation of funds, perform research, and engage with mission stakeholders in order to inspire and connect with people within a network.

“INTEGRITY IS DOING THE RIGHT THING, EVEN WHEN NO ONE IS WATCHING.” - C. S. LEWIS
