Dear Mr LaChance

Letter of Commendation

I want to express my appreciation for the exceptional work done by your two installers, Dave McPeak and Brian Holt, on the installation of our video cameras at the Scalehouse at our Westbrook, Maine mill on June 7 and 10. Both men were courteous, professional, and thorough – they were flexible to our needs in positioning the cameras while at the same time remaining focused on completing the installation. Despite uncomfortable conditions during several hours of rain in the afternoon they kept working trying to finish the job, and only gave up when it became apparent that the rain was interfering with the quality of their work. I commend both of these men for their work ethic, their great attitudes, and their positive representation of your company.

Yours sincerely

Ryan P McAvoy
Northeast Region Wood Manager
