

*We the People of Kansas,
the supreme governing body,
do so demand*

Economic Justice

We believe in the Kansas workers' right to unionize, work free of harassment, earn a living wage, and retire with dignity; and in reducing the food tax and requiring those at the top to pay their fair share.

Equitable Public Education

We believe that Kansas children have a right to a high-quality public education with adequate resources that are equitably provided according to need.

Healthcare Access

We believe that all Kansans should have access to quality, affordable healthcare, mental health and substance abuse services, and that reproductive healthcare patients and providers should not be unjustly targeted.

Racial and Indigenous Justice

We believe that all Black, Latino, Asian, and Indigenous people of Kansas deserve to be treated fairly and with dignity, protected from overzealous policing, and provided equitable opportunity in all facets of life.

Environmental Stewardship and Sustainable Agriculture

We believe in protecting the Kansas environment by banning fracking, rehabilitating our waterways, supporting local family farms, and reducing our overall carbon emissions through energy efficiency and renewable energy.

Voting Rights

We believe that voting is a guaranteed right that must not be unjustly burdened or infringed and that election access, transparency, and integrity are necessary to ensure this right.

Gender Equity

We believe that women in Kansas deserve equal pay for equal work; that they should be protected from discrimination and abuse in the workplace, at school, and in our community; and that all people have the inherent right to make their own reproductive choices.

Religious Freedom

We believe religious minorities have the right to practice their faith free from fear, discrimination, and political scapegoating.

LGBT Rights

We believe that Kansans of all gender identities and sexual orientations deserve the right to live, work, and raise families protected from discrimination.

(Your senator/representative name)

We demand progress and equity in opportunity and outcome in all measures of human life, right, and dignity.

*We demand. May it be so.
Signed,*

The Kansas People

And your constituent

(Your name)

(Write a personal note)

Responsible Gun Policy

We believe in responsible gun ownership that requires background checks on gun purchases, training for a concealed carry permit, and that guns should not be allowed on school grounds, campuses, or in public buildings.

Immigrant Rights

We believe that refugees and immigrants in Kansas, both documented and undocumented, benefit the economy and should have the right to drive legally, purchase insurance, and attend colleges and universities.

Criminal Justice Reform

We believe that Kansans deserve a demilitarized highly trained community-focused police force, and a fair criminal justice system that aims to rehabilitate individuals and protects youth from the school-to-prison pipeline.

Anti-Corruption Reform

We believe that the Kansas government must be ethical, accountable, and transparent. Political bribery, secret dark money, and lobbyist contributions must end. There can no longer be a revolving door between elected public office and corporate special interests.

Disability Rights

We believe Kansans with disabilities have a right to barrier-free participation in society. Persons with disabilities should live full lives with dignity, choice, and independence.

Infrastructure Investment

We believe that the road, rail, and water systems of Kansas must be improved; that Internet access for all communities is a necessity; and that a renewable green energy infrastructure is critical to our security and future.

Child Protections

We believe every Kansas child deserves the best, that no child should go hungry, and that our foster system must address abuse faster.
