

Education Research, Technical Assistance, and Training Support Services

Ensuring our Students' Success

CRP, Incorporated (CRP) Provides Strategic Expertise in Education Support Services

CRP is an education research and management consulting firm providing specialized services to local, state, federal and private organizations for almost 30 years. CRP's team offers a wealth of experience in varied aspects of education. CRP's staff and nationally-recognized senior consultants have an intricate understanding of emerging issues, policies, trends, and developments in education to advance best practices, curriculum delivery, research, school leadership, classroom management, education system executive management, and other areas of the teaching and learning ecosystem. CRP provides a comprehensive suite of education support services, including education research methodologies, policy analysis, and custom-tailored, outcomes-oriented technical assistance and training to education agencies, school districts, public and private schools, charter schools, educational systems and education- focused foundations.
