

**Klamath Basin Audubon Society
Wayne and Lois Ann Scott
Education Grant Program**

Dear Teachers:

The Klamath Basin Audubon Society is offering small instructional grants to educators through the Wayne and Lois Ann Scott Education Grant Program. If you need funds for a project that would increase your students' understanding of and appreciation for the natural world, you are encouraged to apply for one of these grants. Emphasis is placed on teachers for grades K-6, but the selection committee may consider other education programs that provide outreach to children under the age of 18 in the Klamath Basin.

Grant requests for up to \$300 will be considered. Projects should involve an entire class or be open to public attendance or use, and should demonstrate achievable and relevant conservation or education goals. Although other projects will be considered, KBAS encourages the use of grant funds for the following:

- 1) Projects that focus on recycling and solid waste issues, and/or awareness of natural resource consumption.
- 2) Projects in which students conduct hands-on science or conservation activities.
- 3) A class field trip to any Klamath Basin National Wildlife Refuge and participation in some type of program or presentation by refuge staff.

The deadline for submitting applications is January 31, and you will be notified by February 15 about whether your project will be funded. To apply, please submit the attached application by email to the current Grant Chair or President, or, if absolutely necessary, by mail to: KBAS, P.O. Box 354, Klamath Falls, OR 97601. See the web site for contact information:
www.klamathaudubon.org

Grant recipients are responsible for providing a final report and display board materials about the project to KBAS by July 1 of the project/grant year.

Thank you for including natural resource projects in your students' education!
