The Watershed, Solid Green, Alice Lane Virgin Active & more

COMMERCIAL

RESIDENTIAL

RETAIL

COMMERCIAL

RESIDENTIAL

RETAIL

As responsible built environment professionals, we are committed to sustainable architecture and therefore continually strive to implement green principles in our designs. We also encourage our clients to aim for a green star rating from the Green Building Council of South Africa (GBSCA). Our design for 24 Richfond Circle was the first building in KwaZulu-Natal and the second in South Africa to achieve a four star green star rating from the GBSCA. We have proudly achieved awards and accolades over the years and have a special interest in retail and commercial architecture.
