Beach Cleanup

Host your next corporate outing at the beach, while empowering your staff to make the world a better place!

Sea Smart's corporate beach cleanups are a fun and powerful way to engage your staff to protect our oceans. These cleanups include:
• Experienced and knowledgeable facilitators
• Hands-on, educational activities to learn about plastic pollution, marine animals, and how we can help our oceans
• Equipment and protocols to ensure a safe cleanup for groups of 10-100 participants

Your day can be tailored to include team-building exercises and other activities of your choice. All proceeds go towards Sea Smart's youth programs.

Help keep our beaches clean and beautiful!
