

Developing Personal Risk Management Plans

SATURDAY

January 20 • February 17 • March 24

Participants will attend ALL THREE workshops

Location

Bryant Center
2200 N. Bryant Avenue
Oklahoma City, Oklahoma
73121

Attendance

Sign-In | 8:30am - 9:00am
Workshop | 9:00am - 4:00pm
Lunch will be provided

Registration:

To register please contact Oklahoma Black Historical Research Project (OBHRP) at (214) 505-3678 or email: obhrpi@gmail.com

Pre-registration is required to participate. Please register early as space is limited to 50 participants. There is no cost to attend. And travel will be reimbursed at \$0.535/mile, with a maximum of \$75 per family, per workshop attended.

Workshop Structure

Delivery of this risk management education program will consist of two major components:

1. Workshops

Three day-long (6 hours) workshops will be conducted approximately 30 days apart.

The same producers will attend all three workshops. Lunch will be provided.

2. Individualized Study

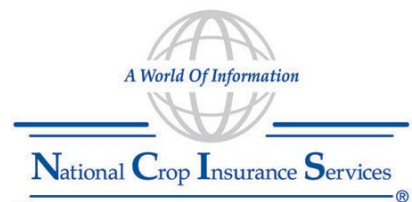

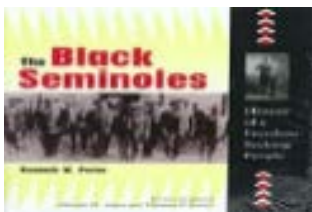

The educational activities in the workshops will build on each other with specific homework (individual study) assignments to be conducted following each workshop. Local Extension Educators will also attend the workshops and will provide assistance to the producers on an individual basis to ensure that homework assignments are completed.

Presenters

Albert Essel
Lincoln University

Laurence M. Crane
National Crop Insurance Services

At the end of this project, each participant will have developed a personal risk management plan for their farm/ranch.

This workshop is open to all interested persons. The USDA prohibits discrimination in all its programs and activities on the basis of race, color, national origin, gender, religion, age, disability, political beliefs, sexual orientation, and marital status.

Developing Personal Risk Management Plans

Saturday

January 20 • February 17 • March 24

Participants will attend ALL THREE workshops

Registration Sign-In | 8:30am - 9:00am

Workshop | 9:00am - 4:00pm

Lunch will be provided

The objective of these workshops is to teach farmers how to understand and implement farm business planning principles for successful risk management decision making. In this workshop each producer will prepare their own personal plan to deal with the risks they face.

Participants in this workshop will:

1. Be introduced to the farm business planning process and learn how to:
 - Identify and list all of their farms assets and their productive capacity
 - Determine the current wellbeing of the farm business
 - Review the feasibility of alternative enterprises
2. Be introduced to five areas of risk and learn how to identify, measure, and manage risks on their farms in these areas:
 - Production risks
 - Marketing risks
 - Financial risks
 - Human resource risks
 - Legal risks
3. Understand financial management of the farm and how to use financial statements and budgets to assess the performance of the farm business, and make better decisions.
 - Income Statements
 - Balance Sheets
 - Enterprise Budgets
4. Develop personal risk management plans for your farm.
 - Develop goals in each of the five risk areas
 - Identify specific actions you will take
 - Commit to follow through and implement the actions identified
5. Network with other producers in your area and learn from them as you discuss current issues of mutual importance.
 - Share best management practices

Workshops will consist of formal instruction, group discussion, hands-on activities, and take home assignments. Local Extension Educators will help participants complete their homework assignments.
