BREW OF THE MONTH

MIDWEST MIDNIGHT

STYLE: MILK CHOCOLATE STOUT

STATS: 6.1% ABV 45.8 IBU

The sun has set on this Minnesota specialty brew. We've all been there when the clock strikes twelve. Just a slight breeze accompanies the vastness of the sky above. Stars as far as you can see. The Midwest Midnight is smooth. It is sweet, but not cloying. The Cacao Nibs from Ghana give a chocolaty finish that fights with a roasty and slightly astringent dryness for the final flavors. The off-white head is picture perfect. It is everything that a Milk Chocolate Stout should resemble.

It is getting late, and you are in the Midwest.
