World Conference of Banking Institutes (WCBI)

I am pleased to report that we held a highly successful conference in London during September. We wish to congratulate the LIBF team and their organisers for the efficient and smooth running of the event combined with the Gala Dinner held in the Crypt of the London Guildhall.

We also wish to thank the speakers and panelists who provided a valuable perspective on the subject “Growth and Sustainability in an Age of Disruption” and, of course, the attendees who delivered valuable questions and subjects for debate.

The Founding Sponsor, ADGM Academy, plus Bearing Point, DueDil, Synack, GARP and Moody’s Analytics provided valuable financial support helping to make the conference a memorable event.

Those attending the event received a library of pictures covering the conference and for the benefit of those unable to join us we have added a few below. The most memorable picture is probably the handing of ‘the baton’ by Alastair Tyler of LIBF to Prasad Padmanaban of Asian Institute of Chartered Bankers, who will host the 2021 Conference in Kuala Lumpur.

Benefits
The primary beneficiaries of the GBEStB will be for those banking institutes supporting the initiative, as they will:

- Receive support in developing an ethical and professional culture in their national banking industry, sustained by international standards;
- Tap into the large pool of talent, expertise and experience of their peers;
- Enhance their standing by playing a role on the global stage and participating in standards development; and
- Provide internationally recognised education programmes to individuals qualifying with them, facilitating the free movement of labour.

Regional Events
We encourage members or prospective members to hold regional events in 2020. We are prepared to support such events to promote an understanding of GBEStB, our standards and incorporate subject matter of educational value. We have allocated a budget to support a local host to contribute towards associated costs and have identified East Africa, Eastern Europe and India as potential venues but will, of course, consider others.

Further Standards - Assistance Requested
We are urgently seeking to commence work on at least two further standards and have identified two subjects: Fintech and Green Sustainable Finance.

We need an effort to accelerate the process of developing further standards and, therefore, we are looking for volunteers to draft these on the guidelines of the existing two published standards which are ‘Ethics Education and Training’ and ‘Threshold Competence for Professional Bankers’. These are also available to view on the website. We are also able to provide funding for this work. Anyone with the skills and ability to undertake these tasks should contact either Simon Thompson, Chair of the Standards Committee or the Secretary General.
