Cohort Engagement Lead – 2019 Data and Policy Summer Scholar Program

Overview:

The Cohort Engagement Lead (CEL) is a highly motivated summer program student who works with student peers, graduate resident assistants and program administrators to ensure the program runs smoothly and achieves the expected outcomes. This is an opportunity for those who want to develop leadership skills by being fully immersed in the program experience and supporting operations. CEL will be awarded with a $1000 scholarship applied towards your tuition fee.

Responsibilities:

- Act as a liaison between the program cohort and the program administration
- Represent and advocate cohort interests to administration and faculty
- Actively coordinate and contribute to program activities
- Collaborate with graduate resident assistants and program administrators
- Provide administrative support for program administrators
- Serve as resource for cohort peers
- CEL is expected to work about eight hours per week, some of which is embedded in your program participation and some is in addition to the program schedule

Qualifications:

- Enrolled (admitted and submitted deposit) in the 2019 Data and Policy Summer Scholar Program
- Will live on-campus in the UChicago dorms through the duration of the program
- Interested in gaining leadership experience and past leadership experience demonstrated
- Able to reach out to peers and understand their perspectives
- Passionate, professional, responsible, reliable

Application:

- Enrolled students will be invited to apply and receive instructions on how to apply
