The Gift of Sports
Dear Friends,

In this most unusual and challenging year, The Olympic Club Foundation has learned a lot about itself. We also learned that our youth athletic programs are incredibly resilient — they figured out how to meet the challenges of COVID-19 safety, and the increased needs that these circumstances have imposed on kids in our communities. Once we understood this, we knew we had to make every effort to match their resiliency and continue to be a guardian for youth sports in 2020 and beyond.

Our amazing grants committee went to work to understand how each program could adjust and serve kids, and where our dollars would make the greatest impact. Once we realized the magnitude of the need, we knew we would have a revenue shortfall. So, we committed to drawing on our modest investment account in order to make sure we could help these kids. We have also reached out to many of our supporters, and if you did not see our letter or receive our call, then we hope you are reading this now.

I am pleased to report that in 2020, we were able to fund 69 programs for 32 different sports, across nine counties, serving nearly 20,000 kids — the majority of whom qualified for free or subsidized lunch, underscoring the need for these vital programs.

The continued success of our mission is only possible because of the generous contributions of many, and we are deeply grateful to EVERYONE who has donated or volunteered. I would like to recognize a few key contributors:

To a few of our “game-changers” who have made exceptionally high-impact contributions this year: Bill & Mary Poland, Dave & Andrea Rawson, Santosh & Anita Mehra, Jim & Nancy Bildner, Paul Boschetto, Bill & Jeanne Barulich and the late Don Hill — our most sincere thanks for making this all possible.

To our outgoing Executive Director, Rebecca Figone, and our outgoing board members for their exceptional years of service: Crosby Hyde, Heather McGill and Sean Snyder.

To our incoming President, Stephen Wynne, our new Executive Director, John Ring, and the whole 2021 board — the future of the foundation is in great hands.

We sure hope that 2021 brings back some “normalcy” for all of us, but no matter what comes, The Olympic Club Foundation will continue to be a champion for youth sports.

For anyone who would like to get involved, contribute, or simply learn more, we would love to hear from you — please send us a note at info@olympicclubfoundation.org.

With gratitude,

Tony Scuderi
President, The Olympic Club Foundation

GRANTEE STORY
CHRISTO REY DE LA SALLE HIGH SCHOOL IS TRANSFORMING LIVES IN OAKLAND

Cristo Rey De La Salle (CRDLS) East Bay High School, a member of the Cristo Rey Network, opened its doors in 2018, making it possible for youth of limited economic means to access a unique academic setting with a personalized educational platform.

Located in the Fruitvale district of Oakland, CRDLS offers a Corporate Work Study program that enables students to contribute financially to their education while gaining real-world work experience at a business, nonprofit or government agency. The goal is to help youth with the most limited economic means succeed in college and life.

A committed sports program
In addition to the rigorous academic program, CRDLS also offers extracurriculars, including sports. The CRDLS Athletics Program is committed to providing a positive, challenging, competitive, and fair athletic experience that prioritizes personal integrity, sportsmanship, wellness, and fulfillment of the student athlete’s potential. The hope is that athletic participation will spark a life-long appreciation for competition, exercise, discipline, teamwork and perseverance.

This is a belief that aligns perfectly with our mission at the Foundation. It was a great match, and CRDLS CEO & President Stephen Murphy may have articulated this sentiment best when he stated, “We are blessed to partner with The Olympic Club to provide opportunity to our students. Cristo Rey De La Salle East Bay High School serves the entire student, and our athletic teams are an integral part of their growth.”

Part of the funds granted purchased new uniforms for the JV Boys Basketball team, a group of Freshman that had failed to win a single game in their inaugural season. The Foundation was proud to supply uniforms that in a small way would help contribute to building a sense of team. The losses in that inaugural season didn’t come as a big surprise, but the lack of success did not diminish team spirit. Instead, the failure they encountered in that first season bonded this team of underdogs, and fueled a collective desire to work hard, and get better.

The team makes an incredible turnaround
In 2019–2020, that first group of CRDLS student athletes became Sophomores, and a new class of Freshman were welcomed. Incredibly, the JV Boys Basketball team that was winless in year one went UNDEFEATED in its second year of competition! They even won two tournaments along the way, demonstrating championship potential, and providing great joy to all involved.

CRDLS is currently engaged in remote learning, but COVID-19 stands in the way of the start of the 2020–2021 season. While their journey together may be on hold for now, you can bet that nothing is going to defeat the indomitable spirit of these young student athletes. When play resumes, they will be ready!
