

Rivergate Project Review

Christensen 47m MY "No Comment"

In October 2018 the Christensen built MY "No Comment" arrived at Rivergate. It is the first time this stunning pleasure craft has chosen Rivergate Marina and Shipyard to undergo some refit work.

The 47m motor yacht "No Comment" was delivered to her owner in 2007. MY "No Comment" has a beam of 9.02m, a draft of 2.36m and a displacement weight of 380T.

Powered by 2 MTU (12V4000) 1,800hp diesel engines and propelled by her twin screw propellers the yacht is capable of a top speed of 18 knots, and comfortably cruises at 16 knots. With her 54,131 litres fuel tanks she has a maximum range of 4,952 nautical miles.

MY "No Comment" conducted an in water and out of water maintenance period to carry out various class and flag works including annual maintenance as well as multiple improvements and repairs. The works included but were not limited to running gear, tanks, valves, electrical, crane, complete main engine overhaul, air conditioning, upholstery along with several other refit tasks. The vessel arrived in Brisbane on 22nd October 2019 at Rivergate and works began the day of arrival.

During the yacht's stay, the crew enjoyed several functions with Rivergate, including crew BBQs, barefoot bowl nights and sporting events such as a cricket test match. The crew was pleasantly surprised by Brisbane's vibrant nightlife and the Marina's proximity to the CBD, airport and other main attractions.

Additional works to MY "No Comment" included:

- Complete main engine overhaul
- Servicing all seawater valves & pumps for Class
- Servicing air conditioning & all chiller units
- Annual maintenance & servicing of propulsion gear
- Servicing of Elevator
- Interior carpet replacement
- Antifoul
- Alfa Laval works

Captains Testimonial

"During our 3 months at Rivergate Marina & Shipyard, MY No Comment underwent various Flag and Class surveys in addition to multiple improvements and fixes. As is the case with every shipyard period, hurdles were encountered along the way but the team at Rivergate worked whatever hours necessary to ensure we met our deadlines and appointments. Communication was clear and concise, and available 24/7. Support not only stopped at the vessel itself, but also extended to our crew's wellbeing and comfort, always willing to provide whatever service we ask of them. Already a great, clean facility, we look forward to seeing Rivergate's expansion in the future and hope the next time we visit we can be lifted directly at Rivergate!"
