

Full Planning & Design

Full planning and decor is for the couple that wants assistance every step of the way from finding the venue to budget management. This is the perfect package if you are planning your wedding from another state and you need a local anchor, advocating for you every step of the way.

Partial Planning

Partial Planning is for the couple that has already done a lot of the legwork planning for their wedding (i.e. has secured the venue and hired most of their vendors) but still needs some assistance with the planning process, some assistance with decor and bringing everything together cohesively.

Wedding Management

Wedding Management is for the couple that is excited to plan their wedding themselves, has done all the legwork, but wants professional assistance to get things rolling and wants to be present on their day, leaving the wedding day detail management to the professionals.
